appointed as the new exchange editors.

The staff voted to become members of the Quill and Scroll, an international honorary society for high school journalists. The charter has been sent for. Articles were assigned for the next edition of the Broadcaster which will come out in about ten days. The meeting was closed with Mrs. Kimzey, advisor, reading an article called, "How to Write News Objectively."

GLAZENER SPEAKS TO STUDENTS

Highlight of the assembly at Brevard high school last Wednesday, January 12, was a short talk on "Food Production" by Mr. J. A. Glazener, County farm agent. Mr. Glazener began his talk by telling the students that food is not only important now, but it is an important thing at all times. He emphasized that we cannot go to extremes in food production, and announced our production goals for the year which seemed rather high for this county. He told the students that the slogan, "Food fight for freedom," should be kept in mind all year, and that they should do their utmost to help achieve the food production goals. He explained a chart which showed these goals compared with the ones this county had last year; it showed a marked increase in corn, hay, vegetables, milk and other farm products. Mr. Glazener announced that

STAFF HAS FIRST MEETING
 The Brevard high school newspaper staff got underway with their first meeting of the new year at which many important things were discussed. A brief meeting was held on Wednesday, but the regular meeting was held on Friday, January 14.

A minor change was made in the staff. Josephine McGaha, Johnny Summey and Betty Norton were voted as new members of the staff. William Thomason and Johnny Summey were appointed as the new business managers and Theodore Carland and Gene Hall were

cards would be distributed on which the students could write what they could do, and they could later be organized into groups with leaders and supervisors.

Mr. Kimzey presented typing and shorthand awards to Marguerite McCann, Jeanette McCall and Marie Barton.

STUDENT COUNCIL RESUMES DUTIES

The Student council of Brevard high school got underway with a call meeting January 13. The council has been directed to be responsible for the front lawn of the school and enforce other regulations that must be observed during snowy weather.

Frances Hendricks, president, presided over the meeting and requested that all members of the new traffic committee resume the responsibilities of seeing that all hall regulations are observed.

Hereafter, meetings will be held every other Tuesday, second period.

MRS. MEDFORD NEW TEACHER

Mrs. Josephine Medford is a newcomer to the faculty of Brevard high school. She has taken the place of Mrs. Reschke who resigned at mid-term. Mrs. Medford teaches chemistry, general science, and health and is also homeroom teacher for the senior girls.

Mrs. Medford attended Brevard college and graduated from Women's college of U.N.C. at Greensboro. She received her B.S. degree there.

BOOKS ORDERED ARE NOT AVAILABLE

Due to the paper shortage many of the new books ordered for the Brevard high school library were not available. Some of the best books that have come are: "Song of Bernadette," "The Human Comedy," "Our Hearts Were Young and Gay," "Look To the Mountain," "We Took to the Woods," "The Year of Decision" and "They Also Ran."

B.H.S. has now joined the Junior Literary Guild, announced Mr. Beebe, librarian. He also requested that anyone interested in becoming an assistant in the library to see him immediately. Due to a change in the home economics schedule the former assistants have had to resign.

HERE AND THERE
 Christmas and New Years have come and gone long ago, and school has finally started again. But school doesn't have to be in session for there to be plenty of gossip in the air.

Viv S. and Jim N. are still that way it looks like. Anyway, they've started the year off right in economics class.

Have you heard that Ty Morris and Frances Martin are just about

to part because of Spalding Mc. My, my, you're behind times . . . that happened at least two days ago.

What was that that Johnny S. said about Frances H.? Oh, I remember now. It was, . . . CENSORED . . .

Jeanette M. says her vacation only needed one thing. Can you guess it? His name begins with G and contains only four letters. Simple, eh?

Doris Jean S. has disappointed us. We thought she would follow in her sister's footsteps and fall for Bobby S. brother of B.H.S.'s famed casinova G. Simpson) but she fooled us and fell for Hunter.

Poor William T. seems to have more competition than he can take care of. If it's not the Navy it's the college and vice-versa. Not slipping are you, Willie?

"Wee Willie" S. wants to know who gave him his nickname and why. He says he just came to school one day and there it was, and nobody knew who started it. Any information on the subject would be greatly appreciated by Bill.

QUESTION OF THE WEEK: What happened to Charles H. and Marie T.? Did they break up or what?

Mary Francis G. is definitely through with the Navy and has taken over a certain boy's heart from Clemson. P. S. She's also taken over his B.H.S. ring. Does that give you a hint?

Viola J. and Paul P. seem to have been bitten. Have you noticed that locket he gave her for Christmas? And that isn't all, just look at Paul's new billfold.

REJECTION

A crowd of German airmen arrived at the gate of Heaven and clamored to get in. "Who are you?" asked St. Peter. "We're the 50 German airmen who were shot down today by the R. A. F.," was the reply.

Said St. Peter: "Wait a minute while I look at the Berlin communique." After reading it he came back and announced: "It says here that only two German airmen were shot down today. So two of you come in and the rest of you can go to h-----"

FARM QUESTIONS AND ANSWERS

QUESTION: What is a good mineral mixture for hogs on floor-eds pens?

ANSWER: F. H. Smith, nutritionist with the animal industry department of the State College Experiment Station, recommends equal parts of ground limestone, steamed bonemeal or defluorinated phosphate, and common salt. This mixture may be left so that the pigs may take it at will. For self feeding, the mineral mixture may be made more tempting by mixing a pound of tankage or meat scrap to nine pounds of the mixture.

QUESTION: How can I remove shine from wool clothes?

ANSWER: Sandpapering and sponging are good treatments for removing shine from wool clothes in war-time clothing conservation, says Ruth Current, State home demonstration agent of the State College Extension Service. Clean the garment by sponging and then gently rough up the nap with fine grade sandpaper. This helps to extinguish the shine and gives the garment a new lease on life.

QUESTION: What is the best time for topdressing grain?

ANSWER: Applications made from February 15 to March 15 usually give the best growth, say agronomists of the State College Extension Service. Late topdressings usually do not increase growth or yields as much as those made during the indicated period. The agronomists recommend 100 to 200 pounds of nitrate of soda, 80 to 160 pounds of sulphate of ammonia, or 50 to 100 pounds of ammonium nitrate. On potash deficient soils, use 150 pounds of 10-0-10, or mix the nitrogen material with 50 pounds of muriate of potash for one acre. The agronomists suggest that growers get all of their fertilizer, including topdressings, as early as possible so as to help solve storage, labor and transportation problems.

USE A

Poultry Water Warmer

To Increase Egg Production

Eggs are an essential food and essential foods are important in winning the war. Egg production can definitely be increased in winter by warm water. To keep warm water before the chickens at all times necessitates some method of keeping it warm.

County agent Glazener says, "Simple electric water warmers are the safest, most effective and economical way of doing this job. They are no longer an experiment; I have used them four years."

Make your own water warmers from plans we will furnish free of charge—or buy one ready made from B & B Feed and Seed Co.
