Brevard Club Donates \$10 To The Infantile Paralysis Fund

The Brevard Kiwanis club donated \$10 to the Infantile Paralysis fund drive at their meeting Friday night at the Bryant House.

Dr. E. J. Coltrane, chairman of the Kiwanis Education program, was speaker of the evening, and spoke on objectives for 1944, principal one of which is support of the war effort, he explained.

Dr. Coltrane said that it was doubly fitting that objectives of Kiwanis could be discussed inasmuch as 29 years ago on Jan. 21 the first Kiwanis club was organized in Detroit. When World War I was carried to America there were 39 clubs with a membership of 4,000. Today, he pointed out, there are 2,200 clubs in the United States and Canada with a membership of 122,986. Of this total, 11,000 members are in the armed forces of the country, and 55 members have offered up the supreme sacrifice.

Slogan Adopted

Dr. Coltrane said that the initial Kiwanis club 29 years ago adopted as a slogan "We Build," and in his opinion building is still the main objective of Kiwanis. Comparatively, there are hardly more than 10 per cent of the Kiwanis membership in the armed forces, therefore, the speaker said, it is with the other 90 per cent that support of the war effort, building the finances of the country through bond buying, and keeping up the morale of those whom the membership comes in contact with is left.

Should Combat Lies

"Building is the needed work of Kiwanis, not only in the financial and material type of structures," the speaker said, "but in building good will here at home for our allies, and seeing to it that such lies as that started last week by Hitler and Tojo in regard to the 'separate peace' movement is nipped in the bud." Dr. Coltrane emphasized.

Dr. Coltrane said that the Bryant House furnished better meals than any meeting place of more than 25 clubs he had visited during the past year, and while he stated that good food is essential, the fellowship of members, the moves that are started by such a group of 37 men getting together, and the building that naturally ensues, is the laudable item of Kiwanis.

Much Sickness In Penrose And Enon

BY N. L. PONDER

Church and Sunday school attendance was very good last Sunday. The Rev. W. S. Price, pastor, delivered an unusually good sermon at the 11 o'clock service.

Lloyd Blythe and Charles Edmondson, of Hendersonville, were visiting friends and relatives here Sunday and attended church. Lloyd is a former resident of Enon.

Theo Williams, who has been in the army service for two years or more and who has been in service

in Australia for a year, is home visiting his parents, Mr. and Mrs. T. S. Williams. This is his first visit home since joining up. It is understood he will return for duty in a few days.

Mrs. Geraldine Luther, of Baltimore and Hendersonville, was visiting her parents, Mr. and Mrs. M. H. Holliday, last weekend.

Mrs. Holliday is improving from her attack of flu.

John Brown, up Lyday's Creek, is beginning to sit up after a hard siege of flu.

W. L. Talley, of Penrose, is somewhat improved from his sickness. He was not able to attend

church Sunday and his absence was regretted much as he is teacher of the men's adult Bible class. We hope he can be with us again. Mrs. T. F. Middleton, another Sunday school teacher, was kept at home Sunday. We wish her recovery soon and help as teacher of young women.

Protect My Kid From Infantile Paralysis

NOT All the enemies are over there. One of the most cunning is hiding out on the home front. Call him The Crippler, call him poliomyelitis, call him INFANTILE PARALYSIS! Call him anything you like, but FIGHT HIM.

Track him down. Corner him and destroy him. For he destroys innocent children... MY KID, YOUR KID... future citizens of the United States of America and of the world we are fighting and dying to remake.

The "rebirth of freedom" that Old Abe Lincoln had something to say about — let's make it a rebirth of freedom from disease. THAT'S the children's first enemy on the health fronts of America.

"Look — pal. No use trying to keep the news from me just so it won't burden my mind while I got a job to do. I know there was an epidemic of infantile paralysis in 1943—more than 12,000 cases. Third biggest epidemic of this thing in recorded history in the USA.

This was back on YOUR front in 1943.

It was a great break for the kids—you kids and mine—that there was the NATIONAL FOUNDATION FOR INFANTILE PARALYSIS to fight the Crippler. But fighting costs money. And the docs at home say there'll be another epidemic in 1944 and so long as there is inevitable wartime crowding and mass movement of people.

That's what I can't get off my mind. THAT'S why I want you to support the NATIONAL FOUNDATION'S ANNUAL FUND APPEAL AND ITS MARCH OF DIMES in nationwide celebration of THE PRESIDENT'S BIRTHDAY.

That's why I've laid my rifle aside long enough to do some straight talking. I'm picking it up again now, for I've got some pretty stiff fighting to do.

AND SO HAVE YOU...
