

TIGHTEN UP RULE ON RATIONING OF PASSENGER TIRES

Only The Most Essential Persons Can Secure Tires In The Near Future

In an important change in tire regulations, OPA has announced that eligibility for new passenger car tires now will be on an "occupational" basis rather than on the basis of mileage traveled.

This step was taken, an OPA statement said, to conserve inadequate stocks of new tires and the rapidly diminishing supply of used passenger tires available for rationing.

"Since there are not enough tires to meet all essential needs," L. W. Driscoll, district OPA director at Charlotte said, "local rationing boards will have to do a most careful screening job in considering applications filed by persons eligible under the new program within the already tight tire quotas assigned to boards. Motorists doing work most essential to the war effort, the public health and safety, will have to come first." Under the new program tires will be rationed in the following order:

First: New tires (Grade I) to the most essential drivers according to a list of essential occupations which has been furnished to local boards. Persons in these groups may also get certificates for Grade III tires, if new ones are not available.

Second: Used tires and "war tires" (Grade III) will go to essential users.

Third: Motorists who do not use their cars in connection with their work will continue to be ineligible for tires of any sort and must con-

tinue to rely on repairs and recapping.

Fourth: In the southeast, no driver holding an "A" card is eligible to buy tires of any sort.

ing at the Farm Security office and reviewed the work of the past year. They are well pleased with the plans to assist farmers in Transylvania county. The FSA is trying to help produce "more food for victory" by working in both home and general farm work.

Mr. Fletcher stated that if at any time he can give any information to or be of any help to farmers he will be glad to do so.

Transylvania and Henderson counties have been put under one supervision and because of the necessity of division of time between the two offices the supervisor is able to spend only four days a week at this office. Thomas N. Renshaw is the FSA supervisor for both Henderson and Transylvania counties.

Last week officers raided two stills in the county. A metal still of 65 gallons capacity was in full operation on Frozen Creek when the officers appeared and two men fled. Five hundred gallons of beer and six gallons of whiskey were seized.

The second still demolished was in the Old Toxaway section. It was of the metal type of 60 gallons capacity. Three hundred gallons of beer were seized. It was idle at the time. No arrests were made.

Officers making the raids were: Mr. Rogers, C. C. Noble, investigator of the alcohol tax unit, Asheville, Mr. Reece and Jake Cox, of Brevard.

RELIEF GROUP IN EFFECTIVE WORK

United China Relief Figures Released Show A Wide Program Of Effort

According to figures recently released, it was revealed that United China Relief sent to China for its 1943 relief program \$8,612,155.02, it is announced by Mrs. Oliver Orr, chairman of the United China Relief committee of Transylvania county.

This amount is an increase of more than three and a half million over the sum sent in 1942 and almost five million more than was sent in 1941. The 1943 relief program covered five fields of effort, including education, medicine, public health, child care, direct relief and self-help projects.

In the field of medicine and public health United China Relief continued its support of army and civilian hospitals and emergency medical service training schools; aided the transportation of medical supplies and gave assistance in the anti-epidemic work of the Chinese health administration.

"The past year, during which China was virtually blockaded by the Japanese, and great natural disasters brought tremendous additional suffering to the Chinese people, has been a test of our relief program in China," Mrs. Orr said. "We rejoice that through our affiliated groups in China, an ever-growing chain of trained and willing helpers throughout the country have been able to meet many difficult situations promptly and effectively."

Revenue Collector Makes Suggestions

Dewey Gravely, internal revenue collector for this county, has called attention to certain information that will assist in preparation for filing the 1943 income tax returns. If this information is followed, Mr. Gravely said, it will greatly simplify the work that must be attended to in his office between now and March 15.

The following information is given regarding what to bring or to do before making inquiry at the

revenue collector's office: Bring form W-2 furnished by employer showing wages received and tax withheld; form 1125 sent by collector of internal revenue with blank forms for 1943 showing tax reported and amount paid for 1942; copy of Declaration of Estimated Tax during 1943, if such was filed; an accurate record of all other income besides wages received in 1943.

The office in the post office building will be open on the following days: Feb. 12, 19, 22 and 29; March 4, 8 and through the 15th.
