It appears generally agreed that it will become-almost immediately-a springboard (1) for further attacks and this map indicates two of the possible drives. One would follow the west coast highways and rail lines to some central rail center, such as Rennes (2) to cut off the entire Brittany and west coast area of France. The other (3) would sweep toward the River Seine, through the important St. Lo and Caen sections and on to Rouen—thus getting behind the German defenses at Havre and heading toward Paris.

TO GO OVER TOP

Transylvania is expected to go over the top of its fifth war loan quota at a county-wide rally to be held at the Brevard high school Friday night at 8:15 o'clock, Chairman Ed McMahan declared

Sales to date in the county total around \$200,000, or approximately one-half of the \$406,000 quota. The "E" bond sales amount to over \$95,000 and the quota is \$158,000.

"The drive officially ends on Saturday and therefore we must reach our quota at the rally Friday night," Mr. McMahan said.

"We get credit for "E" bond sales made during the rest of the month of July, but if we are to reach this quota of \$158,000, and that is most important, we must sell a lot of these bonds at the rally," he explained.

Highlights of the bond rally program include a short address by Mrs. J. S. Silversteen, vocal selections by Adelaide Van Wey, outstanding radio artist and concert singer; music by the Transylvania Music School-Camp band under the direction of James Christian Pfohl, and short talks by wounded officers and men from Moore General hospital, representing all theatres of war.

During the program an auction sale of bonds will be conducted.

At the rally at Lake Toxaway, \$40,150 worth of bonds were sold, and at Little River sales amounted to \$44,250, which were record sales for both communities.

A check up meeting held last Thursday night revealed that zone Employment Over 60 - day proximately \$20,000 worth of leaders in Brevard have sold ap-
