Labor Leaders Protest Activities Of The Transylvania Citizens Committee

AF Of L Group Scored Committee In Resolution Here Last Sunday

The executive board of the North Carolina State Federation of Labor, in a special meeting here last Sunday, adopted resolutions scoring the activities of the Transylvania Citizens Committee and asserting that the "only purpose of the committee appears to be that of preventing organization of the workers in the plants of the Ecusta Paper corporation."

One of the resolutions stated that the members of the committee are not employees of Ecusta and are not eligible to membership in any union of the American Federation of Labor. The North Carolina State Federation of Labor is a branch of the American Federation of Labor.

The board, in its resolutions, asserted that it is none of the business of members of the Transylvania Citizens Committee whether or not the Ecusta employees "wish to join a union or do not wish to join a union," and said that "the question of union membership concerns the workers and no merchant, lawyer, doctor, dentist, druggist, preacher, farmer, banker, picture show operator, or any one else, except the worker himself has any right to say whether or not the worker wishes to exercise his American right and privilege of joining a union of his fellow-workers."

The board stated that no other group in the country has fought harder for the "untrammeled rights of free enterprise than has the American Federation of Labor."

The board called on the members of the citizens committee to study carefully the "unwholesome situation being created" and cited

Citizens Committee Says It Is Their Affair To Oppose Having Unions Here

MOTORISTS MUST BUY AUTO STAMPS

Failure of Auto And Truck Owners To Purchase Will Bring Penalty.

Further delay in purchasing and displaying the federal stamp for automobiles and trucks will result in the imposing of heavy penalties for auto and truck owners who are operating their vehicles without the federal stamp, Deputy Collector S. E. Varner has announced.

The new federal stamp is effective for the fiscal year, July 1, 1944, to June 30, 1945, and the law requires that the owners of these vehicles not only purchase the stamp but display it on their windshields.

The office here in the post office building has been instructed to make a personal check and leave summons on all vehicles on which the stamp is not displayed by Oct. 2, Mr. Varner said, and to continue this drive until all owners have purchased and displayed the stamps. The office here will be open for this service on Monday, Oct. 2, and Saturday, Oct. 7.

Mr. Varner further stated that if anyone desiring to purchase the stamp on the above mentioned dates was unable to do so, then he could purchase a P. O. money order for \$5.00, payable to Collector of Internal Revenue, Greensboro, N. C., and send to him at Brevard, and the matter could thus be handled by mail.

Mrs. S. E. Varner will leave Thursday for a visit of two weeks with relatives in Atlanta, Griffin, Ga., and Fort Pierce, Fla.

"Having toiled and sacrificed to bring industries into Transylvania county we feel that it is our business what happens to them and to their employees," members of the Transylvania Citizens Committee stated today in reply to a resolution passed by the executive board of the North Carolina State Federation of Labor, in a special meeting here last Sunday.

The Citizens committee membership is made up of more than 100 well known business and professional people and farmers from all sections of the county who signed this statement in joining the committee.

"We, the undersigned, do hereby associate ourselves in a committee of citizens for the purpose of opposing and working against the unionization of industry and business in Transylvania county."

The committee's statement released today stated: "The people of the community, including the business men, professional men and farmers whom the union leaders condemn so severely, have a personal and financial interest in the industries of this county.

"Every one of these industries located here as the direct result of the efforts of the public spirited citizens of our county, who not only gave their services, but spent thousands of dollars of their hard earned money as well. They subscribed stock, furnished sites and paid other expenses in connection with the establishment here of the Tannery, the Cotton Mill, the Hosiery Mill and Ecusta.
