## Parking Meters Are Being Installed In Brevard

### **DEVICES WILL BE** PLACED IN USE IN NEAR FUTURE

Town Board Expects To Receive From \$8,000 To \$16,000 Annually

REVENUE NEEDED

Work was started here Monday morning on the installation of 225 parking meters in the business district of Brevard, and with the passage of a special ordinance by the board of aldermen next week, the meters will be put into use in the

Of most modern design and fully automatic, the meters will take two nickels or 10 pennies for two hour parking. They are being installed from the Farmers Federation store on East Main to Smith's service station on West main and from the jail below the court house to the post office on both sides of Broad street.

Each meter costs \$65.00 installed and it is estimated that they will pay for themselves in eight months. Until they are paid for, the town will receive 25 per cent of the proceeds. If the meters aren't entirely satisfactory, the company agrees to remove them at no cost to the town.

Board members estimate that the parking meters in Brevard, in comparison with other towns about the same size, will net from \$8,000 to \$16,000 annually. They point out that this revenue is badly needed at this particular time to did not return. (International) repair the streets and purchase maintenance equipment as well as to expand and improve the present city water and sewerage sys-

The purpose of the meters, the board members also pointed out, is two-fold: to raise revenue and to relieve the parking problem. "Undoubtedly, the meters will make

Streams Have Been Heavily Stocked. Ranger Expecting Big Season

The trout fishing season will open in the Pisgah National Forest, Saturday, May 3 and will close on August 31, Ranger W. W. Huber announces today. Davidson river will be the first stream to

Last year 8,202 fishermen caught more than 35,000 trout in the Pisgah Reserve, and Ranger Huber says he expects the biggest season ever this year since many of the streams have been heavily stocked with rainbow and brook trout by Harry P. Shafer, foreman in charge of Davidson river trout rearing station, and Mr. Huber says fish used in stocking the streams will average nine inches in length.

"Wayne Wiggins, refuge supervisor, has done a nice job of distributing the stock evenly in all the streams," Mr. Huber added.

Heavy planting of trout have been made in North Fork of the French Broad river, Bent Creek, Looking Glass streams and North ADDITIONS ARE Mills river. Other streams were stocked some time ago so that the trout would be aclimated to the streams before the opening of the season. All fish used in stocking here have been conditioned in dirt pools, Mr. Huber said, and will put up a good fight before they can be caught.

The schedule is so arranged that at least one stream will be open on the week ends. After May 3. Davidson river will be open Thursday, Saturday, and Sunday of each week, while Bent Creek and the lake will be open Wednesdays

## **PROGRAM TO MARK** END OF BREVARD BARGAIN JUBILEE

Merchants Highly Pleased With Business During 8-Day Trade Event

MANY AWARDS

More than 5,000 people are expected to be present for the climax of the Brevard Bargain Jubilee here Saturday and local merchants report a very satisfactory volume of business for the trade event which began a week ago.

Highlighting the day's activities will be the program which will be given in front of the court house at 5 o'clock. The Ecusta string band and other Ecusta talent under the direction of John Eversman will perform.

The street in front of the court house will be roped off and C. M. Douglas, representing the Brevard Merchants association, will have charge of presenting prizes, worth in the aggregate about \$1,500.

A close check of local stores made by this newspaper has indicated that all of the participating merchants are pleased with the results of the trade event. Naturally, some report a larger gain in sales than others, but all interviewed expressed the belief that Brevard's. trading territory had been expanded by the Jubilee and that as a result merchants of the town would continue to reap benefits in the
