ROTARIANS HEAR MAYOR J. ALSOP

Prominent Floridian Says Much Progress Has Been Made In WNC

John T. Alsop, mayor of Jacksonville, Fla., for 18 years, a prominent Rotarian of Florida and North Carolina as well, highly praised the citizens of Brevard and Transylvania county on the vast progress that has been made here in recent years and added that "teamwork and cooperation will make this a section of wide fame." Mr. Alsop was the principal speaker at the last regular meeting of the Brevard Rotary club in Gaither's cafeteria.

"Here in these beautiful mountains you have everything, natural resources, good people, etc., that's needed in building a great community," the prominent speaker declared.

"I've been a booster of Western North Carolina for the 50 years I've been in Florida and naturally, this is where I spend every summer," the man who has been referred to as the Mayor of Florida said.

He stressed the fact that it took promotion on the part of a large number of people to make Florida the famed state that it is today and he urged that the same type of promotion be carried out here. "You have here a balanced combination of farmland along the French Broad River forming the

necessary back country for industry, tourist and cultural development," he remarked.

Mr. Alsop said that officially he is director of public relations for the National Container company at Jacksonville, Fla., with interest in Paramount movies. He profits most who serves best," he stated. The speaker was introduced by
