CLUB NEWS

With the addition of the activity period this year there will result a number of student clubs. Each teacher will sponsor one club which will meet at least once a week. There will be a Journalism club, Annual club, Athletic

club, Dramatic club, Art and Book club, Beta club, and Glee club to mention a few. The teachers haven't definitely decided which club they will sponsor but details are being worked out.

CHANGES AT B. H. S.

This year at B. H. S. has brought a number of changes. A system of five hour periods, which all the better schools in the state have, has been started. School begins at 8:45 and ends at 3:30 as usual. There is a homeroom of 15 minutes followed by three periods of one hour each. The lunch period is fifty minutes long and at 12:50 the bell rings for a thirty minute activity period. Following are two class periods ending at 3:30.

B. H. S. has two new teachers this year. Mr. Dail from McCall, S. C., and Mrs. Holmes from Shelby. Mr. Dail is coaching football and teaching physical education. He plans to have a new system of phys-ed this year. The boys and girls will wear uniforms, and showers are being installed in the girls' dressing rooms.

Mrs. Holmes from Shelby teaches junior English and is sponsoring the Brevardier work.

In losing the eighth grade Brevard high school is in danger of losing a teacher. If there are more than fifty absences for the first ten days, the school loses a teacher and chemistry will be dropped from the curriculum. However, if there are less than fifty absences the schedule will continue as usual.

HERE AND THERE

When the calendar indicated September 1 and once more ye old school bell rang we knew that routine of daily struggle had begun again at B. H. S.

What's this—something is missing. Ah! yes—it's the patter of little feet on yon noble halls (the eighth graders that is). And now we give fifteen rahs for their departure.

But even without the little darlings romance must go on. Pete S. and Nancy C. are still one of our many couples.

Wayne K. certainly likes to shop in Greenville (oh, those red-haired sales girls).

SHERIFF BERT FREEMAN

By Zeb H. Wolfe
"The Plumber-Poet" Easley, South Carolina

(In appreciation of the kindness shown the writer by the Sheriff, and sincerely and truly dedicated to him for his kindness to all—Author)

Although he's rather tall and slim,
Yet he's filled with pep and vim.
He's always ready to do some deed
Or kindly act for those in need.
A nice and kind and friendly fellow—
Not overbearing, and neither "yellow".
He hates the fact he must arrest
Some who seem to do their best
To run things over any "Law man,"
And get by with all dirt they can.
Now folks like that he doesn't mind
And when they meet with him they find
That when kind treatment will not do,
That he sometimes can get rough, too.
But strangers and those where he lives
Say that he always surely gives
To everyone just rights, and true—
And for this, Sheriff, they are thanking you.

and others who know you.

L. She goes crazy at the sight of a white house.

George P. is a constant visitor at the Hart residence. Could it be Billie's charm?

Lewis C. and Mary A. H. certainly have a lot to discuss lately (is it lessons?)

Ann D. says she's very content to be a mountain hick.

Barbara H. had a lot of fun living in Asheville this summer.

Thomas M. is enjoying school more since Pat C. isn't on the Student Council anymore.

We wonder who Judith Mann's ardent admirer will be now that Dick B. won't be with us this year.

Summer brought many fluttering hearts for the ninth grade. Betty W. and D. C. Dills had quite a set-up—is it still going?

B. H. S. is hanging on a very thin thread wondering if the present freshmen are as social minded as usual! Well, if the roof comes crashing down, you conservative (?) folks will know its just the ninth grade having a get together.

Speaking of getting together, Bob Parris will get this fall. Not to mention Juddy—with the beautiful jalopy parked out in front of ye olde building.

Most of the Senior boys have their eyes on that cute Jane Ann

H. Time alone will tell who the lucky man will be.

Well, we've used up almost our wim, wigor, and witality so we had better stop and save a little to use on Hendersonville, and we do mean use!

RED HERRING

Some traces of Party Line policy lurk

In talk about "making democracy work"

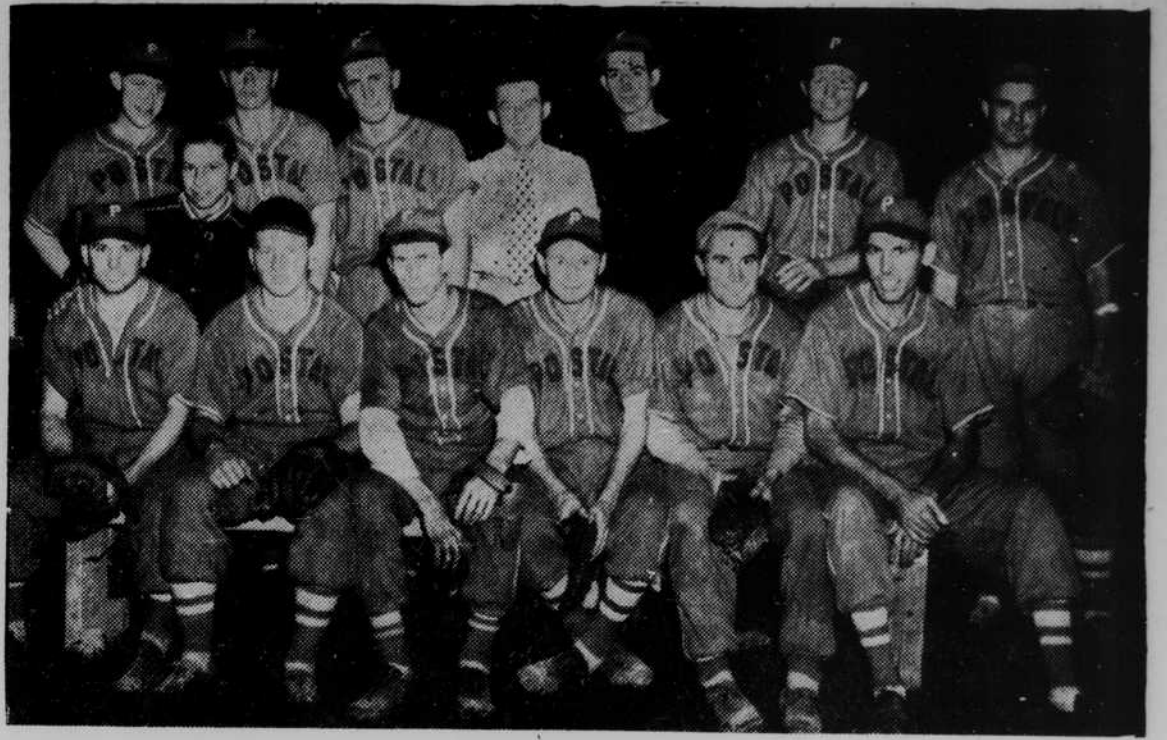

As if to imply with unwarranted jeers

That it hasn't already been working for years!

During countship man yearns for a woman. After marriage, the "y" is silent.

Big News!

The New Bus Station OPENS TODAY!

We rejoice with other Brevard people that after many years of waiting we now have a modern and commodious bus station.

We urge that our people generally accept the invitation extended to

them by the owner and the lessees to visit the station.

This new station will serve the needs of the traveling public in Brevard for many years to come and will, we believe, give our visitors a favorable impression of the town.
