### March Of Dimes Drive Opens Here Monday

#### EXTENSIVE PLANS BEING MADE FOR POLIO CAMPAIGN

Kiwanis Club Is In Charge. J. O. Wells Is The General Chairman

#### QUOTA INCREASED

The March of Dimes campaign, designed to raise money to combat polio and to continue research into the cause of the disease, will open in Transylvania county and other parts of the nation on Monday.

Again this year the local Kiwanis club is sponsoring the drive in this county and J. O. Wells is directing the effort here. The quota for this county has been raised \$1,000, making the total sought in the drive \$5,000. The national goal is \$50,000,000.

Mr. Wells said yesterday that coin receptacles would be placed in business houses throughout the county and that a dime board would be operated on the square on January 20 and again on the 27th.

The President's ball will not be held this year, Mr. Wells said, because too large a percentage of the receipts would be absorbed by the cost of staging it.

Mr. Wells yesterday urged the utmost liberality in giving to the polio campaign. He stated that in 1950 there were about 54,000 polio patients who received financial help through the 2,822 chapters of the National Foundation for Infantile Paralysis. Thirty thousand of these were victims from previous years, including 17,000 from 1949, the worst polio year in history. The others helped by the March of Dimes money were the four out of five of 1950's more than 30,000 cases.

"This crippling disease," Mr. Wells said, "is a scourge that is turning to Page Five

Commerce Directors Discuss Needs Of School, Reasons For Giving

#### WILL MAKE CANVASS

A Brevard College Loyalty campaign will be launched immediately by the directors of the Brevard chamber of commerce and the merchants association, it was decided at a meeting held Tuesday night over the city hall.

The directors have felt for some months that the people of the county should show their loyalty to the institution in a concrete way, and at a meeting last fall, Dr. George B. Ehlhardt, president of the college, pointed out the great need for assistance at the school.

This need was exaggerated by two serious fires in November in Dunham hall, the administration building of the college.

It was disclosed at the meeting by the outgoing president, John Anderson, that should the community give a sizeable sum, an anonymous donor would contribute proportionally.

A committee with John Anderson, as chairman, and W. M. Melton, Jerry Jerome, Ralph H. Ramsey and Charlie L. Russell as members, has made a thorough study of conditions and has recommended an early canvass of Brevard and Transylvania.

Letters will be mailed out asking for a contribution for the year 1951 and a pledge for subsequent years.

It is hoped that enough funds can be raised in the 1951 Loyalty —Turn to Page Eight

Since The Times has won more awards during the past 10 years than any other weekly in North Carolina, it is being studied by journalism students. —Turn to Page Eight
