Bags are here in profusion—made of leather, corde velvet and faille. Costume jewelry is a "must" for the woman who wants to look her best during the holiday festivities. Patterson's has an elaborate display of this smart jewelry.

Breakdown Of New Motor Vehicle Safety Responsibility Law Given

Commissioner Urges All Motorists To Learn Important Requirements

Motor Vehicles Commissioner Edward Scheidt reminded North Carolina motorists that they will be confronted by much greater responsibilities than ever before when the state's new motor vehicle safety responsibility law goes into effect on January 1.

Among the more important requirements cited by Commissioner Scheidt were the following:

1. Drivers of cars that are involved in traffic accidents resulting in death or injury, or property damage to any one person exceeding \$100, must file satisfactory proof of ability to meet damage claims up to \$11,000 or suffer suspension of their driving license.

2. In the event of an accident resulting in death or injury, or total property damage of \$100 or more, the drivers of all cars involved must file two reports instead of one, as at present.

3. Both the accident reports and proof of ability to meet damage claims must be filed by all drivers of involved cars, regardless of fault.

4. Insured drivers must file both accident reports, one immediately and the other within 24 hours, but thereafter the law accepts their insurance as proof of ability to meet damage claims.

5. Uninsured drivers have 60 days in which to obtain a release from liability signed by all persons involved, a final court decree of non-liability, execute an agreement providing for the payment of claims or deposit security up to \$11,000 with the Department of Motor Vehicles.

Commissioner Scheidt declared pointedly that the legislature had been moved to enact the new law not only because of the alarming increase in motor vehicle accidents during the five-year period of 1948-1952, but also because only a small per cent of the innocent victims of traffic accidents ever received compensation for their economic losses. In 1948, he said, North Carolina had 16,218 reported traffic accidents in which 734 persons were killed and 7,490 injured. In 1952, he emphasized, there were 42,941 reported accidents in which 1,115 persons were killed and 15,409 injured.

Explaining the new requirement

Masons Will Confer 3rd Degrees Thurs.

Theodore L. McCrary, Worshipful Master of Dunn's Rock Masonic lodge announces the Master Mason degree will be conferred at an emergent communication Thursday night at 7:30 o'clock in the Masonic temple.

The degree will be conferred by Briscoe Whitmire, senior warden, and assisted by Frank Bridges, senior deacon.

T. E. Reid, past master, will give the lecture.

All members are urged to attend and a cordial invitation is extended to all visiting Masons.

of two accident reports, Commissioner Scheidt said the first must be made immediately to the local police if the accident occurred in a municipality or to the state highway patrol, sheriff or qualified rural police if it happened outside of a municipality. The second report must be written and sent to the State Department of Motor Vehicles within 24 hours after the accident. A new official form must be used in this case and a supply has been deposited with state highway patrol stations, the Department of Motor Vehicles, and all police departments and sheriff's offices.

"Now right here," the commissioner said, "let me give you North Carolina motorists a friendly tip. Both of these reports must be made regardless of who was at fault and by the operator of every car involved. Never make the mistake of ignoring either report because you think you were not to blame. I strongly suggest that you lose no time in getting one of the official forms. Study it and keep it in your car. If you have an accident, be sure to answer all of the questions accurately."

Turning to the question of insurance, Commissioner Scheidt emphasized several times that the new law is not a compulsory insurance law. He explained that it specifically exempts insured owners and drivers from the trouble of obtaining court decrees or depositing collateral, because the possession of insurance automatically meets the purpose of the security section, which is to compel drivers to pay for damages they cause or forfeit
