

We Join Our Neighbors In Paying Tribute

To A Vital Institution!

THE GREATLY ENLARGED

Transylvania Community Hospital

It is with great pride that we unite in acclaiming the modernized Transylvania Community hospital . . . an institution that now, more than ever, will take front rank position in helping to write the history of this community's progress. Our enlarged hospital brings to fruition the efforts of a great many people . . . efforts of our

whole county . . . efforts which have extended over a long period of time.

A new era in the care of our sick and suffering opens with the dedication of the new wing. It is one of the finest achievements in recent years, made possible by a people working together for a common good, in recognition of human as well as material values.

BE SURE TO ATTEND THE
FORMAL DEDICATION PROGRAM
Brevard High School
Sunday Afternoon, Jan. 24, 3:00 p.m.
