## Goodwill Concern Buys Fine Transylvania Beef Calves At Show

VERNON FRICKS and W. L. BAUGHN, shown at left, recently bought the two fine beef calves from Transylvania at the show and auction sale in Asheville on behalf of their concern, the Goodwill Motor company. The owners of the animals were: FARREL MOORE, center, Brevard FFA, and JOE FARMER, right, Harry Straus 4-H.

### IT'S WORTH KNOWING

J. A. GLAZENER, Agent

The world's population has increased 25 per cent in the last 20 years. Its food production has increased five per cent.

During the same period of time the population of the U. S. increased 18 per cent, but our food production showed a 50 per cent increase.

In 1800 the American farmer was feeding himself and only one-third of another person. In 1900 he fed himself and was able to support eight other persons. Today, 1954, the alert U. S. farmer provides food for himself and 14 others, and that in the light of a terrific reduction in farm population. In our colonial days farmers constituted 85 per cent of the U. S. population as compared to 12 per cent today.

"When the city population gets too large to be supported by the farms, a civilization crumbles," so said the famous historian Edward Gibbon. He further stated that this was one of the major causes of the fall of the Roman Empire.

A local swain told his girl friend that he was going to steal a kiss. She replied: "O. K., bud, let the crime wave begin."

### It's Time To Check Livestock For Lice

January and February are good months to inspect cattle for lice and other insects, according to veterinarians.

J. Clark Osborne, head of the veterinary section of State college's department of animal industry, suggests immediate inspection of all cattle and if they are found to be infested, even slightly, using one of the following methods of elimination:

**By spray** — On a warm day, use eight pounds of a 50 per cent wettable DDT or methoxychlor powder in 100 gallons of water. This equals from one-fourth to one-half cup DDT per gallon of water.

Or, suggests Osborne, use one pound of 25 per cent lindane in 100 gallons of water. The veterinarian cautions farmers to use onyl methoxychlor on dairy animals, however, and never spray baby calves.

**By dust** — On dairy animals, use a 1.5 per cent rotenone dust. On beef animals, use a 5 to 10 per cent DDT dust (six to eight ounces per animal). Apply thoroughly in the region of the head, neck, tail

**REMOVE CELLOPHANE WRAPPING** — If you have new lampshades wrapped in cellophane, be sure to remove the wrapping. Cellophane has a tendency to shrink with heat from the light bulb and warp the shade as well as creating almost permanent dirt streaks on the lampshade. The cellophane cover also reduces the amount of light.

To quickly remove wrapping, clip through cellophane at a horizontal level. It can then easily and quickly be lifted off from the top and from the bottom.

**RAISIN NUT SAUCE** — Combine 1-2 cups sugar with 3-4 cup water and 1 tablespoon white corn

and between the legs. Osborne offers a final tip: Housed cattle benefit materially from frequent grooming with a brush and comb.

symp, and cook over medium heat stirring until mixture boils. Cover and cook two minutes. Uncover and cook until mixture thickens slightly (about 5 minutes). Then add 1 cup seedless raisins cut in half, dash of salt, 2 tablespoons lemon juice, grated rind of one lemon, and half cup of chopped pecans. Blend thoroughly. Serve hot or cold, over vanilla ice cream, plain cake, or puddings.

**THIS AND THAT** — Strong tea diluted with a little water makes an excellent antique-like satin finish for pine wood. When dry, cover with two thin coats of fresh white shellac then wax.

You can wash a clothes line with mild soap in warm water. Rinse and dry thoroughly. To keep it clean, try a thin coat of white shellac.

When you think of prescriptions, think of VARNER'S.—adv.

### WHAT'S BEING DONE? WHO'S DOING IT?

J. A. GLAZENER, County Agent

Cash awards of \$300, \$200 and \$100 will be presented this fall to the three organized communities that according to the out-of-the-county judges having made the most progress during this year in the Transylvania County Community Development program.

These cash awards along with several \$25 prizes, that will be announced later, are being donated by the generous and much interested civic clubs and business men of Brevard and Transylvania county.

A complete list of contributors will be given later.

Representatives from seven communities met with the county agricultural workers in a county-wide community leader training meeting Tuesday night, January 19, in Gaither's Dogwood room. Communities represented were: Balsam Grove, Silversteen, Quebec, Dunns Rock, Cedar Mountain, Little River and Penrose. A total of 40 persons participated in the enthusiastic meeting either in helping to explain how to improve on community work and programs or by giving challenging reports of what was now being done in the different organized communities.

Applications placed in last few days for forestry seedlings: Samantha Mull, 10,000; Clarence Galloway, 2,000; M. H. Shuford, 1,000; Oscar J. McCall, 1,000; Richard McCall, 500; Gay Valley Camp, 500.

Since there is a limited supply this year, applications for white pine seedlings are skyrocketing and those wanting seedlings should place applications at once with any of the agricultural workers.

### Sickness, Births And Visiting At Oakland Reported

By MRS. I. S. SANDERS

**OAKLAND** — Mr. and Mrs. Clarence Norton, of Washington, N. C., announce the birth of a baby son, born on January 15th, 1954.

Visitors of Mr. and Mrs. Pick Nicholson recently were Mr. and Mrs. Balus Nicholson and children, of Walhalla.

Mrs. Weaver Taylor and son, Rex, and daughter, Mrs. Doyle Rice, of West Asheville, visited relatives here Saturday.

Marine Private First Class Doyle Rice is now in the hospital at Camp Lejeune receiving treatment for an injury he received on his back while working on a tank.

Mrs. Mamie Nicholson and son, Bill, visited Mrs. Verona McDevitt and children Monday.

Miss Nannie Sue Taylor, granddaughter of Mr. and Mrs. I. S. Sanders, will leave Asheville Thursday for Atlanta, Ga., on a junior achievement program of the Lee Edwards high school, Asheville.

Henry Hinkle and Goode Grimshawe spent several days last week in "Bearcamp" on a camping trip. They did not report seeing any bears on this trip.

Mr. and Mrs. Fred Hinkle were in Brevard Saturday.

Mr. and Mrs. Lloyd Cash and children visited Mr. and Mrs. Harlow Owen of Gloucester over the week end.

Mrs. Bessie Cash and son, Marshall, spent Saturday night here with her son, Howard Cash.

Several folks in this community are "breaking ivy" for the Hanes Evergreen company. It's a cold job since they have to carry the evergreens across many frozen-over streams.

The Whitewater road is now getting some repair work done on it. Since it takes good roads to get the school buses safely over them, we certainly think authorities should see that these roads are kept up.

Mrs. M. E. Nicholson and Mrs. Edwin Reid are both in the hospital. Folks wish for them a speedy recovery.

Mrs. Mary Burgess and Mrs. Cora Cash are still on the sick list.

Rev. Hulon Arms and family were dinner guests Sunday of Mr. and Mrs. Fred Hinkle.

Mr. and Mrs. L. C. Sanders and son visited Mr. and Mrs. I. S. Sanders Sunday.

## Important Notice

We are planning to have telephone service available in Rosman and along the highway between Brevard and Rosman this spring.

The building which will house the exchange in Rosman has already been erected and most lines have been built in the town. The switchboard is to be delivered in the spring.

To expedite telephone service to people who will be served by this exchange, we suggest that they come in and make application now. This will enable us to begin installing phones at once, so that they may be put into use immediately upon completion of the switchboard installation.

We shall be glad to give rates on application.
