EDUCATION BODY IS PETITIONING COMMISSIONERS

Resolution Adopted At A Meeting Monday Night. Program Is Four-Phase

AMOUNT IS \$637,600

Because of overcrowded conditions at Brevard high school and the dire need of a gym both here and at Rosman, the Transylvania board of education this week adopted a resolution, petitioning the county commissioners to call a bond issue in the amount of \$637,600.00 immediately.

The resolution will be brought up for discussion and possible action on Monday, March 5th, when the commissioners meet here in the court house.

A definite, comprehensive building program is outlined in the resolution that the board has adopted.

The first phase of it is the construction of the new T. C. Henderson school at Quebec, for which state funds are now available. Construction is expected to begin as soon as approval is received from the state.

A gymnasium at Rosman, to be constructed as soon as the plans which are now being drawn up are completed and approved by the county and the state, is the second phase of the building program.

The Rosman gym will be paid for with county funds which are now available.

The third portion of the building campaign is the purchase of a site within or near the city limits of Brevard and the building of a high school on it. This building would consist of 30 classrooms and vocational training shops, which would cost, including the site, \$693,400.00, and to be paid for out of the bond issue and other state and county funds.

Charlie Russell, director of public relations at Ecusta graciously offered to share the Civic radio hour with the organized communities should they be interested in putting on a monthly community radio program as they did in 1954 when so much enthusiasm and interest spread all over the county in community development. The idea was approved with the understanding each club would act on it and report its decision to the county agent's office.

Bobby Hoyle, congenial WPNF station manager, offered his services in helping to arrange and schedule the programs should the community radio hour started year before last begin again.
