Local Firemen To Launch Campaign To Raise Funds For A Rural Fire Truck

Community Club Leaders Assisting. Will Sponsor Williams Rides Next Week

Members of the Brevard fire department are asking leaders in the organized community clubs to join with them in raising funds to purchase a new and modern fire truck that is especially designed to battle blazes in rural areas.

This new truck will cost \$13,000 and has a storage tank to hold 500 gallons of water. It is equipped with a pump and 1,000 feet of hose so the water can be replaced from a nearby stream or pond as fast as it is used.

It is also designed so as to put the water under pressure, then when firemen fight a fire with this "high pressure fog," one gallon is equivalent to five. Fire chief Dan Merrill points out that "fog" smothers out a blaze much quicker than direct water.

F. L. "Buck" McCall, chief at Ecusta, has been named chairman. —Turn To Page Six

POLIO SHOTS ARE OFFERED FRIDAYS AT HEALTH OFFICE

Only 40 Percent Of Eligible Group In County Has Been Immunized To Date

The Transylvania - Henderson county health department here is continuing polio immunizations each Friday, and children up to 19 years of age and women who are pregnant are urged to take these shots before the peak of the polio season.

Persons desiring to see their physician rather than go to the health office for polio immunizations are urged to do so.

Health authorities here point out that while there have been recent incidences of polio in the state, there is no evidence anywhere of an epidemic, but they urge parents who have not had their children immunized to do so as soon as possible.
