Welcome Extended Campers, Summer

Visitors, Banner Year Is Predicted

DU PONT workers on the silicon plant in Buck Forest joined with other Du Pont construction forces across the country on Monday in recognizing another fine safety record. For the second time, a safety record without parallel in the construction industry - a full year without a lost-time injury, was set by Du Pont construction forces on 45 siles in 22 states. Harold F. Redmile, field project manager here, is pictured above addressing the workers. He praised them on their record of no injuries since work was started on the plant in February of this year and he urged their continued cooperation in completing the plant without single lost-time injury. At the left he is pictured inspecting the new safety flag, inscribed with the numeral "2", standing for the second time that an accidentfree year has been achieved. In the pisture with him at the right is Ed Hill, safety engineer for the construction of the silicon plant. (Du Pont and Times Staff

Du Pont Construction Workers Set Safety Record, Local Group Praised

Redmile Addresses Mass Governor Quoted Meeting On Site Of Silicon Plant, Buck Forest

For the second time, a safety record without parallel in the construction industry — a full year without a lost-time injury, has been set by Du Pont construction division at 45 sites in 22 states.

The local announcement was made at noon Monday by H. F. Redmile, field project manager of the new silicen plant now being constructed in Buck Forest.

A mass meeting of all employees was held on the plant site, with Mr. Redmile making an inspiring talk ported to The Times during the on the importance of safety on construction work.

At the close of work last Friday, over 10,000 employees on Du Pont construction projects chalked up eight million exposure hours without a lost-time injury. Upwards of 240 major injuries could have Miss Smathers Is quency rate had followed that of -Turn to Page Eight
