### Farming Survey Made

By — JIM DAVIS  
County Agent

The 1960 County Commission Farm Census Summary for Transylvania County shows 63,127 acres of farm land which is about the same acreage report the year before.

Corn grown for all purposes showed an increase from 3,775 acres to 4,043.

The number of acres grown for vegetables decreased approximately 500 acres, but in the report Irish potatoes is excluded from vegetable acreage and the Irish potato increased from 581 to 1121.

Corn is still the main row crop with vegetables second.

There was an increase of approximately 500 acres of improved pasture in the county.

Cows kept mainly for beef and milk remained about the same, and sows and gilts for breeding showed an increase of 74. These figures are comparisons between the 1958 and '59. The percent of total crops harvested is as follows: Corn 38%; hay crops 23%; vegetables for sale 19%; other crops 4%; Irish potatoes for sale 11%; home gardens 5%.

The indications are for a good crop in 1960 when corn will probably be the leading row crop.

There will be a decrease in number of laying hens in 1960 —Turn to Page Eight

### Event Celebrated Over \$62,000 Paid Monthly In Social Security Benefits

In celebrating the 25th anniversary of the Social Security act, Douglas H. Butler, the local representative, reports that more than \$62,000 is being paid out in benefits in Transylvania each month.

Mr. Butler makes a weekly visit at the Brevard court house each Thursday, and he will be happy to discuss the program with anyone at that time.

Nationally, about 13 1/2 million persons were receiving old-age, survivors, and disability insur-ance monthly benefits at the end of 1959 at an annual rate of more than \$10 billion. At the close of 1940 — the first year in which monthly benefits were payable — beneficiaries through-out the Nation totalled 200,000. Almost half a million disabled-worker beneficiaries and their dependents receiving benefits at

a yearly rate of over \$400 million are included in the figures for 1959.

The number of wives, hus-bands, and children of disabled-worker beneficiaries receiving benefits increased sharply in 1959. Such benefits were first payable for September, 1958. Na-tionally, from February to De-cember, 1959, the number of —Turn to Page Four

### New Dam Will Be Built, Other Improvements

Lake Toxaway, the million-acre playground of a half cen-tury ago, will be restored and a two million dollar development project to resurrect this 9,000 acre recreation and resort area is underway.

Lake Toxaway Estates, a North Carolina corporation headed by Reginald D. Heinitch of Colum-bia, S. C., purchased the prop-erty from D. H. Cosby, Inc., of Boca Raton, Florida.

President Heinitch and Dar-nall W. Boyd, also of Columbia, S. C., and vice president and secretary, were in Brevard ear-lier this week completing the transaction.

Purchase price of the property was about \$475,000. This real estate transaction, one of the largest in the history of Tran-sylvania, was handled by Mc-Lain Hall Real Estate, of Greer-ville, S. C.

According to the new owners, construction of the dam which will form a body of water one mile wide and three miles long with a 14-mile shoreline, will be started in the next 45 days, and should be completed in early '61.

Engineers are completing the dam surveys, and surveyors are expected to run the shoreline beginning next week.

**To Be Sub-Divided**  
The property above the lake will be sub-divided into lakeside lots and offered for sale within the next two weeks.

Upon completion of the 14-mile road around the lake, other improvements will include an ul-tra-modern motel with swimming pool and restaurant, and 18-hole golf course, and airplane landing strip, and marina.
