Newspaper Group Finds Shopping A Pleasure In The West Berlin Sector

By MRS. ED M. ANDERSON (Editor's note: The following is one of the series of articles, written on the spot as day to day reporting, by the publisher of this paper who was a member of the East-West Study Mission sponsored by the National Editorial Association to include a number of European capitals.) Shopping is a great pleasure in West Berlin after being in iron curtain countries where it was difficult. KaDeWe, the largest and most complete department store, is comparable to those in many large western cities.

There are plenty of standard brands in merchandise, to and the clothes are highly styled. Near the elevators on the first floor of KaDeWe is a large information booth displaying the flags of many nations. Here information girls speak many languages and if necessary, will accompany customers to various parts of the store where sales are accomplished quickly without the delay found in iron curtain countries. There are many small specialty shops set far back from the wide streets with glass showcases out in front featuring attractive

Candidates For House Are Asked Questions By League

The League of Women Voters of Brevard has asked the Democratic and Republican candidates for House of Representatives in next Tuesday's election four important questions. The answers of both Mrs. Homer Harris, the GOP nominee, and Jack H. Potts, the Democratic candidate, are carried below and should be of interest to all Transylvanians.

Mrs. Harris answers:
1. What is your stand on the unified and uniform courts structure?
Our State Supreme Court presently has more than adequate authority to control and supervise all Courts inferior to itself, including all our Superior Courts. I am against consolidating too much power in one branch of government, preferring to maintain the balance of power between the three branches of government. I do believe there have been abuses in some of the lesser courts and I would most certainly legislate to correct and eliminate these abuses and I am also interested in more qualifications being required for Magistrate and Justice of the Peace in order that we have a better administration of justice.

Mr. Potts replies:
1. What is your stand on the unified and uniform courts structure?
There are portions of the proposed changes that I am in favor of and others to which I am unalterably opposed. It makes but little sense to create another Court with exactly the same jurisdiction as our Superior Court. If more terms of Superior Court are necessary then I suggest the addition of Judges to hold these Courts rather than the creation of another system of Courts with exactly the same jurisdiction. There are certain changes which must be effected in the Justice of The Peace system if not the abolishment of the present system are unwarranted and unjust and it is my feeling
