### Third Attempt Being Made To Organize Plant

There is keen interest in Brevard and Transylvania county in the election at the Olin Mathieson Chemical corporation this Friday and Saturday at the Pisgah Forest plant. The National Labor Relations board has called the election to determine whether or not the hourly employees shall be represented by the United Papermakers and Paperworkers, AFL-CIO, in bargaining with the management. Hours of the election are as follows: Friday, Feb. 17 - 7:00 a. m., to 3:00 p. m., and 4:30 p. m., until 9:00 p. m. Saturday, February 18th - 5:00 a. m., to 7:30 a. m., and 8:30 a. m., - until 11:00 a. m. As soon as the results of the election are known, they will be announced over Radio Station WPNF.

This is the third time that the unions have attempted to organize the Pisgah Forest plant. In 1949 an election was held and the hourly workers voted almost five to one against union representation. Five years later, after another period of activity, union organizers left the community when they were unable to gain enough support from employees to petition for an election.

In a letter recently explaining the company's position in regard to the union activities, Philip C. Brownell, vice president and manager, Eucosta Paper and Film Operations, cited the harmonious relationship which the employees and the company have had for over 20 years, as result of which "work has been steady, and pay and benefits have advanced every year." Mr. Brownell continued: "Those of us who have the job of managing this enterprise at Pisgah Forest and of trying to keep it a good and secure place to work, are strongly opposed to a union.
