THE ARCHITECTURAL SKETCH of the building to house the eleventh paper machine of Olin's Ecusta Paper Operations at Pisgah Forest is pictured above. The building will be approximately 50 feet wide by 460 feet long. The machine will produce a sheet of lightweight paper 160 inches wide at speeds from 700 to 1,000 feet per minute and production is expected during the second half of 1963.

## Much Progress Made On Building No. 11 Paper Machine At Olin

### Gigantic Project Expected To Be Completed '63

Construction is well underway on the building to house the new paper machine for the Ecusta Paper Operations, Packaging Division, Olin Mathieson Chemical Corporation, Pisgah Forest, according to A. J. Loeb, division vice president.

Ecusta's eleventh paper machine will be similar to the tenth machine, which, when put into operation in 1958, was the largest machine in the world designed for the manufacturer of lightweight papers. It will produce papers up to 160 inches wide at speeds ranging from 700 to 1,000 feet per minute.

The building will be 50 feet wide by 460 feet long, containing two floors and several mezzanines.

Ecusta now has 10 paper machines in operation, producing a variety of lightweight papers for the tobacco, printing and carbon paper industries. The Pisgah Forest operations also manufactures filter tipping and cigarette filters, wrapping and permanent wave tissues, other high quality specialty papers, and endless woven belts. With the new machine, built by Black-Clawson Company, Inc., Ecusta will be able to increase considerably production capacity in the lightweight paper field.

W. F. Taylor, Jr., assistant to the division vice president, is serving as project manager, and Chas. T. Main, Inc. is the consulting engineer for the project.

Fiske-Carter Construction Company, Greenville, S. C., was awarded the contract for the construction of the building. Osborne Plumbing & Heating Company, of Brevard, is installing the underground pipes and Southern Engineering Company, of Charlotte, is supplying the structural steel.

Almost 1,000 piles were driven by Raymond Concrete Pile Division of Raymond International, Inc.

A TREMENDOUS CROWD, as the above picture would indicate, attended the annual Fourth of July picnic last Wednesday at Camp Straus. Some 5,000 persons were on hand for the many activities of the day, and the weather was ideal. (Photo by Charles L. Russell)

## In Early Morning Brevard Elks Lodge Is Robbed, \$800 Stolen

The Brevard Elks lodge was broken into early last Wednesday morning, and it is reported that some \$800 in cash was stolen.

The robbery is being investigated by the sheriff's office and the SBI.

According to officers, the robbers seemed to have had a general knowledge of the building.

They sawed through a thick wall on the side of the building and entered a front room, thereby by-passing the burglar alarm system at the front door.

The same thing was done at the upstairs landing.

The safe was carried from one room to another which was lighted by an outside street light. There they chiseled the thick metal safe open and made off with the cash inside.

Money from a juke box in the dining room was also taken.

## Valentine Is Heard On "Story Time"

Rev. Frederick Valentine, Jr., was guest storyteller for "Story Time" at the Transylvania county library last Saturday morning.

The program began with the children's singing of "Old MacDonald Had A Farm" accompanied by Mr. Valentine's playing on the banjo. The story Mr. Valentine told centered around a little boy who had a magic bag which was capable of producing all of his needs as long as he used the four magic words, "I thank Thee, Lord".

Clever sketches drawn by Mr. Valentine as he told the story of the boy and his magic bag gave the children a dynamic picture of the progress of the plot as it unfolded.

Following the story, the children sang a number of songs, again accompanied by Mr. Valentine on the banjo.

Mrs. Lehman Kapp, librarian, reported that approximately 40 children attended the popular summer event which is sponsored by Friends of the Library weekly.

This Saturday at 9:30 a.m. "Story Time" will present an original puppet show, written by Adelaide Van Wey.
