

## Du Pont Wins Award

A. B. Morrison, plant manager of the Du Pont company's Brevard plant, announced the winning of the Board of Directors' Safety Award on October 13, 1962.

This award is in recognition of the Brevard Plant having operated 1,950 days and more than 2,500,000 exposure hours since plant start-up in 1958 without a disabling or time-losing injury.

The Du Pont company established its "award for no-injury plan" in 1931. Under this plan, company units are eligible for awards when they complete certain specified time intervals with injury-free records. This is the third consecutive award since plant start-up that the Brevard Plant has achieved, Mr. Morrison states.

The Du Pont company has long been interested in industrial safety and the protection of the individual. As a result of this emphasis over the years, Du Pont employees find they are much safer at work than at home - 12 times safer as a matter of fact.

Du Pont employees also are in a favorable position at work compared to industry as a whole. In 1961, Du Pont employees experienced 0.34 disabling injuries per million exposure hours, which is 18 times better than the industrial average.

Mr. Morrison congratulated all employees on their achievement and informed them that they would each receive an award in recognition of having won the Board of Directors' Safety Award.

# Transylvania Chapter Of Red Cross Is A Busy Organization

By Staff Writer

Transylvania county's chapter of the American Red Cross is engaged in most of the activities of the national organization's many-sided program.

Chief activities here in recent years have been support of the blood donor program, nurse's aide work, and home services in behalf of members of the defense establishment and their families.

The current blood program has a quota of 850 pints for the fiscal year and as always, the county is expected to oversubscribe its quota.

Transylvanians can be proud of the work of the local chapter of this great humanitarian organization. And they are, as proven by the fact that each year they donate their "fair share" to the United Fund, which sponsors the Red Cross locally.

**Organized in War I**  
The local chapter was a necessity of World War I. It sprang from the need to render services to members of the army and navy, and to aid in the emergencies of making bandages and knitting warm
