Lyday Property Suffers Damage, Work Continued

The derailment of 13 Southern Railway freight cars below Pisgah Forest at the Davidson River substation about noon on Monday created much excitement in the community during the past three days.

Of the number, 10 cars were loaded with coal, which was dumped along the tracks on the property of Mrs. G. H. Lyday.

There were no injuries in the accident, and the cause has not been determined. Some observers feel that it was due to a broken track.

In all, there were some 60 freight cars, and the first one derailed was the 20th behind the engine.

Two of the overturned cars were loaded with merchandise for the Olin Mathieson Chemical corporation. The other car was empty.

The dumped coal was cleaned up and delivered Monday night and Tuesday, and a temporary track has been built around the scene of the accident.

Repair work to the damaged section of the tracks is expected to take another day or two. It was a costly accident for Southern Railway.

Mrs. Lyday was probably the most frightened person when the accident occurred. She was in her kitchen. —Turn to Page Three
