The Retail Dollar

How Do We Spend It Here In County?

How is the retail dollar being spent in Transylvania county?

How much of it is going for food, for cars, for clothing and for household equipment? To what extent have the economic ups and downs changed local buying habits?

The average local consumer, it appears, reacted only temporarily in his spending to the stock market break and to the other jittery occurrences of the past year.

For the most part, he exuded confidence. He found that his personal income was not affected and that he had no reason to cut down on his normal mode of living.

The details on how much was spent in local retail stores and for what, in the 1962 fiscal year, are revealed in the

current market study released by the Standard Rate and Data service. Similar breakdowns are given for communities throughout the rest of the United States.

In Transylvania county, it is shown, retail volume was at a high mark, with most types of stores benefiting. A large part was accounted for by food stores and by those selling cars and other automotive equipment.

These two garnered some 52 percent of all retail business. Their combined sales in the year amounted to \$6,920,000.

Of this total, the stores that sold food for home consumption accounted for \$3,108,000.

Another \$2,493,000 went for automotive purchases, which includes cars, motorcycles, boats and accessories.

An additional \$1,319,000 was spent in gas service stations.

The report also shows how much money went for other kinds of goods.

General merchandise purchases, in department stores and variety shops, amounted to \$1,989,000.

Sales of apparel, in stores specializing in articles for personal wear, came to \$614,000.

Home furnishings sales totaled \$777,000 and drug sales \$1,000,000. —Turn to Page Six

The mayor said that the purpose of the week is to focus attention on young men and the work they are doing.

He emphasized that the Brevard Jaycees have done an outstanding job in the fields of civic improvement and aid to the youth of this community.

During Jaycee week here, the U. S. Jaycees will be recognizing America's 10 Outstanding Young Men of 1962 in Little Rock, Arkansas, with national Jaycee President Doug Blankenship making the presentations.

Transylvania county's "Outstanding Young Man of the Year", "Outstanding Young Farmer", and "Teen-ager of the Year", were recognized by the local Jaycees at their annual Distinguished Service Award banquet Wednesday night. Past State President Fred Swartzburg, of High Point, delivered the main address.

Jaycee week celebrates the founding of the Junior Chamber in 1915, when Henry Giessenbier saw a need for a young man's civic group and organized the first chapter in St. Louis, Missouri, according to local Jaycee president Tom McCrary.

The movement spread so fast that in 1920, the United States
