Talkative Session

Many Attended Meeting Of Planning Board On Friday

The Brevard Planning Board held a public hearing last Friday night, on a proposal by the Board to have the Town zoning ordinance made effective in the area within one mile of the Town Limits.

A large crowd attended and many persons had questions about the ordinance proposed. Several persons voiced objections to adoption of such an act.

Charles Himes, chairman, explained to the audience that the ordinance as proposed was an interim ordinance to extend the present town regulations and zones to this area during the period when the Board was considering new regulations and zones for the entire area, inside as well as outside the town.

Mr. Himes stated that the new ordinance would be drafted within the next six months.

It was pointed out that the Planning Board assembled to consider this zoning amendment and the new ordinance included five members from the outside area.

They are: William H. Keith, Frank Ferrell, Weldon English, Dr. David Lea and Mrs. Donald H. Hill.

The proposed action is being taken under the provision of the laws of the State of North Carolina. It is intended, Mr. Himes stated, to assist and guide the development of the urbanized areas that inevitably grow just outside all municipalities in the state. An Editorial

Let's Stop Polio!

Transylvania county has an opportunity seldom before presented to a community . . . to take another step towards completely eliminating poliomyelitis.

Since the introduction of the Salk vaccine in 1955, the incidence of polio has been cut back sharply. But further reduction in the incidence of this crippling disease is now within our reach.

To help wipe out polio from our community for good, the Transylvania Medical Society and the Brevard Jaycees have organized a drive to provide Sabin Oral Polio vaccine at the modest charge of 25c to all residents of Transylvania county. The Sabin vaccine requires no injection. It need only be swallowed. The vaccine will be administered at six convenient locations beginning this coming Sunday afternoon.

We urge all citizens of our community to get behind this push to help wipe out polio. Let's show that when we are given the opportunity to do something for ourselves, for our families, and for our neighbors, we are not too apathetic or uncaring to do it.
