Times Wins Award

The Transylvania Times was awarded a certificate for outstanding journalism during 1963 at the annual Institute of the North Carolina Press Association at Chapel Hill and at Duke University last weekend.

Of the 12 awards made to the weekly newspapers in North Carolina, The Times copped third in news coverage.

Some 150 weeklies are eligible to compete in the contest.

In the judges' critique it was stated that judging was difficult among the first three winners.

It praised the vast amount of news carried in The Times each week. Other features of The Times received favorable comment of the judges. Editorials and photos of Brevard's prize-winning newspaper were also lauded.

The award was presented to Editor John Anderson by Governor Terry Sanford.

The 1963 certificate brings the total to 24 state and national awards The Times has received in the past 22 years.

Editor Anderson comments that the winning of awards by The Times compliments both the newspaper and the community.

"They serve as a challenge for us to do an even better job."

The Skyland Post at West Jefferson, another Anderson newspaper that is edited and published by Mrs. Ed M. Anderson, received first place in advertising and second in features.

Campus Center Will Undergo Much Renovation

Plans for the new Administration building at Brevard College are now being completed by the architect, Henry C. McDonald, and according to President Emmett K. McLarty the building contract is expected to be awarded around March 1st.

The new structure will be erected adjacent to the Science building on French Broad street.

The approximate minimum cost of the building will be around \$150,000.00.

Offices located at the present Campus Center building will be moved to the new structure, which will also house student personnel offices as well as others for faculty secretaries.

Mr. McDonald reports that the two-story building will be of the same colonial design as the Science building.

It will be of masonry construction, and will contain some 10,000 square feet.

A covered passage way will connect it with the Science building and the proposed classroom building in the same quadrangle.

Brevard College will also spend some \$60,000 on renovation of the Campus Center building.

The two primary purposes of the project will be to enlarge the present cafeteria by 50 per cent and to convert the rest of the building into the Dunham Music center.

Two new buildings have been added to the Campus south of Jones Hall between Ross Hall and the Gymnasium. These are the Duplex Faculty houses.

The two Duplex houses contain four three-bedroom, two-bath living units with a minimum of 1,350 square feet of living space.

These structures cost approximately \$54,000, in addition to site improvements such as water supply, sidewalks, and (any) furnishings.
