## Record Number Graduating At Brevard, Rosman

### Exercises Set During Coming Week At Schools

It's graduation time in Transylvania county, and a record number of graduates will receive diplomas at commencement exercises during the coming week.

Baccalaureate sermons will be preached at both Brevard and Rosman Sunday evening, and graduation exercises are scheduled at Rosman next Monday night and at Brevard next Tuesday evening.

Commencement exercises were held at Brevard College last Sunday afternoon.

Dr. Emmett K. McLarty, president of Brevard College, will preach the baccalaureate sermon at Brevard senior high school Sunday night.

Rev. Ben Ormand, Presbyterian minister, will deliver the invocation and the benediction.

Music will be provided by the Brevard High School Chorus. They will sing two numbers: "Jesu, Joy of Man's Desiring" and "The King's Highway." The processional and the recessional will be played by Miss Judy Ryan.

At eight o'clock on June 9, 1964, the seniors will receive their diplomas. The class of '64 has chosen as their theme, "Knowledge comes, but Wisdom — Turn to Page Five

### Cassels Will Open Another Brevard Store

Cassels United Stores will open a new store, its 29th variety store, in the L. E. Bagwell Shopping Center in Brevard according to Paul Swaynham, vice president.

The store will occupy 6,000 square feet of space and will be modern in every respect, according to Mr. Swaynham.

The present Cassels store, located on South Broad street adjacent to the A & P Store, will remain in operation.

Cassels, a division of McCrory Corporation, operates variety stores in North and South Carolina and Georgia. The company will open five new stores this year, with three already scheduled next year.

Du Pont's New Photo Products Plant Has Picturesque Mountain Setting

### Morrison Announces

## Multi-Million Expansion Is Completed, Making X-Ray Film

Start-up of a multi-million dollar plant near here to make new medical and industrial x-ray films based on "Cronar" polyester film was announced today by the Du Pont company.

The plant is the first commercial unit specifically designed to make medical x-ray films based on polyester. It will double the company's capacity for "Cronar", a tough, optically clear, film now widely used for graphic arts, engineering reproduction, drafting, photorecording and motion picture films.

The highly automated plant, under construction since February 1962, provides jobs for approximately 500 persons and required about 900 construction workers at peak of activity.

Three new medical films, named "Cronex" x-ray films, is being produced at Brevard. They contain faster and improved emulsions developed after more than five years of research and development at the company's Parlin, N. J., photographic products laboratory.

Products range from a high speed film, providing reduced radiation exposure and good image definition, to moderate speed films with high contrast and wide flexibility in exposure and processing. Field experience has shown that the durability and moisture resistance of the polyester base offers better performance. — Turn to Page Three

### Budget Offered

## Board Of Aldermen In Busy Session This Week

The Board of Aldermen Monday night adopted a motion for improved sewerage systems and tabled the 1964-65 budget estimate for public inspection.

The motion as passed authorizes the Mayor and City Clerk to enter into contract with the Harwood Beebe company for engineering services in connection with improving the sewerage system and sewage treatment plant.

This action was taken in compliance with the conditions of the permit issued by the State Stream Sanitation Commission, which allows the town to continue using its present facilities until November 1966.

The budget estimate, as submitted by the Town Manager Bill Edens, and amended by the Board was set out for public inspection prior to its adoption.

The budget calls for expanded police service, improved garbage collection system and contains an appropriation for the first curb and gutter project in Brevard.

The Board also held a hearing in which a motion was adopted denying the issuance of a permit to operate the Brevard Billiard Parlor to Walter Galloway. — Turn to Page Two

## Moore High Man In Contest For Board Of Commissioners

Approximately 4,400 Democrats and Republicans voted in Primary elections in Transylvania county last Saturday.

Donald Lee Moore was high man in the hotly contested race for Board of County Commissioners. He polled 2,818 votes.

Two other newcomers, Hale Siniard, Jr., and Dr. Charles L. Newland, were nominated by the Democrats. Their vote was:

Siniard - 2,198  
Newland - 2,151.

The only incumbent member

### Tax Collections Continue Good

The collection of 1963 taxes in Brevard and Transylvania county continues good, Lawrence Hipp, the tax collector, reported at board meetings this week.

Of the charge of \$98,378.90 in Brevard, a total of \$98,378.90 had been collected as of May 30, 1964, he stated.

The percentage was 89.12 per cent.

For Transylvania the 1963 charge was \$548,856.96, and — Turn to Page Seven

### Public Invited To Inspect New Plant Saturday

Residents of this area are cordially invited to inspect the recently remodeled and greatly expanded Du Pont plant, according to Albert B. Morrison, plant manager. The occasion will be "Open House" to which the public is invited on Saturday, June 6th, from 10:00 a.m. to 7:00 p.m.

The plant, located 15 miles south of Brevard, was first placed in operation in 1958 for the manufacture of hyperpure silicon. Now, following more than two years of construction activity, it is engaged in the manufacture of medical X-ray film.

Visitors to the plant during "Open House" will have an opportunity to inspect these facilities which comprise the most modern photographic film manufacturing plant in the world.

The transition from silicon to medical X-ray film manufacture was accomplished without disrupting the jobs of the 235 employees then working at the plant.

Remodeling began early in 1962 even while production of silicon continued. As segments of the remodeled plant were made ready for the processing of film, groups of production and maintenance employees were withdrawn from the silicon function, retrained, and assigned to their new duties. In its effort to protect its employees' jobs, Du Pont has retained a number of employees two or three times as additional areas of the plant became ready for startup.

Now, with employment approaching the 500 level, all employees have experienced the economic benefits of upgraded skills resulting from retraining.

DuPont has been a competitor in the photographic film business since 1920. As World War I drew to a close, the company began to search for ways to make use of its surplus capacity to produce smokeless powder based on nitrated cellulose. It was a natural and logical step, there. — Turn to Page Six

### Jaycees Plan Many Summer Civic Projects

The Brevard Junior Chamber of Commerce made plans at their May 27th meeting for the light bulb - Kleenex sale on June 10th, 11th, and 12th.

Plans were also discussed for the Sylvan Valley Folk Festival and Jaycee Beauty Pageant on July 2nd, 3rd, and 4th. Paul Atkins and Bill Vining are in charge of the event, and persons interested in participating may contact them.
