Congratulations Received From The Governor

North Carolina's Governor Dan K. Moore congratulated The Transylvania Times this week on the occasion of "Open House" of the newly remodeled Times plant.

In a letter to The Times, Governor Moore said:

"It is always gratifying to me when any group of endeavor in North Carolina takes progressive strides, and it is even more so when the progress comes in the field of news dissemination.

"Our citizens depend on your newspaper and many others like it to keep them well informed. That information then becomes the basis for many decisions they are called upon to make.

"I'm sure the many readers of your fine newspaper join with me in wishing you and your staff continued success and much happiness in your new and modern plant.

Sincerely,
Dan Moore"

Transylvania Male Population Should Lose 41 Tons Of Weight

By Staff Writer

For Transylvania county's male population to get down to what doctors call "desirable weight" they would have to take off about 41 tons.

Local women would have to do some shedding too, but not to the same degree. Most of them, in fact, are somewhat lighter than their mothers were at their age.

As to the average man, he is nearly six pounds heavier than his father was at the

same stage. For the 4,300 males locally over age 25, this increase amounts to 26,000 pounds.

Recent surveys and studies by various agencies, including the Public Health Service and the American Medical Association, have produced figures on a national basis to show the present-day weight of men and women in each height and age category.

Their findings are based on —Turn to Page Three
