(From The Clarion)

### B.S.U. Begins The Year With Picnic

The B.S.U. of Brevard College began its 1967-68 year on Sunday, September 3, with a picnic at Camp Straus, sponsored by the First Baptist Church. Over fifty persons were present, so there is hope for a good year. On Wednesday, September 6, a supper was held in the faculty dining room with some 25 students present. Election of officers were held and are as follows:

President — Jo Ann Pace  
 Vice President — Hugh Lothery  
 Sec. Treas. — Alice Kissalah  
 Listen chairman — Sallie Stephenson  
 Social chairman — Rex Taylor  
 Publicity co-chairman — June Garren, Deborah Sams  
 Music chairman — Jimmy Thames

Plans for the coming year include a trip to the B.S.U. fall convention to be held in Raleigh in November, a project first semester to support mission work next summer, several socials including a square dance and hay ride, a comical chapel program, and several discussion sessions. Everyone, especially Baptists are invited to attend any meetings or socials during the year.

The day students of B.C. have acquired a new student lounge. It has been moved from the basement of the classroom building to the new student center, formerly the James Addison Jones Library. Vice President Janice Oates stated that a meeting will be held in the near future for the purpose of electing a new President and secretary-treasurer.

The Clios are really on the move this year. Many new projects are under way. The society is in the process of deciding on new members and choosing just the right bands for their initiation and Christmas dances.

### Anglo-Cat Dance Is Success

Thanks to the Anglo Cats, the student body of Brevard College was treated to a dance last Saturday night. The Anglo Cats, sponsored by Mrs. Walker, is a club made up of members of the Canterbury Club, whose president is Bernie Badiali, and the Newman Club, whose president is Mark Hatchet.

Bernie said the purpose of the club is to be the most ac-

tive group on campus. This year the Cats plan to have a Coffee House almost every Saturday night. They are trying to bring in outside talent and add variety.

The dance Saturday night kicked off a new year for the coffee house. A ten piece band, The Prisms, from Columbia, South Carolina, provided dance music. The Prisms' leader, Tom Vaiden, said they have only been together three months but they already plan to cut a record, "Harlem Shuffle." One of the Prisms, Steve Selmon, is a student at Brevard.

During intermission, Peggy Killian, Teena Windham, and George Patterson sang comedy and folk songs. Although this trio sounds like a group of professionals, they haven't a name yet. They met last year while freshmen at Brevard. Maybe by the time they graduate, they will have a name, but we really don't mind as long as they sound like Peter, Paul, and Mary.

The Anglo Cats wish to thank the S.G.A. for their cooperation and support, and the student body is grateful for the Anglo Cats.

### Clios Plan For Dances

The Clios are raising money for their dances through services projects such as working on the student center. An informal gathering for the new pledges, as well as more entertainment for the old members, is being planned and will take place in the near future. Initiation for the new pledges will take place on October 21. Officers for the Clios are as follows:

President — Mike Fagan  
 Vice President — Bernie Badiali  
 Sec. - Treas. - Pete Skarinka  
 Chaplain - Sam Vanneman  
 The Nemos held a meeting for returning members on September 8. Officers for '67-'68 were introduced as follows:  
 President - Brenda Wyke  
 Vice President - Sue Shad  
 Secretary - Joy Hooper  
 Treasurer - Leslie Decker  
 Historian - Jackie Griffith  
 Chaplain - Becky Miller  
 Social Chairman - Connie Wiggins

Every freshman girl was invited to a tea which was held on Wednesday, September 13 at Jones Hall. A picnic will be held for pledges before initiation in October.

The Euterps held a meeting in Beam Hall on September 11. Elections for officers were held and are as follows:

President - Holly Williams  
 Vice President - Debby Peterson  
 Sargent at Arms - Amy Marchant  
 Social Chairman - Ann Hartman  
 Pins were distributed and plans for a picnic were made.

## COOKS' CORNER

(Continued from Page 5B)

Melted butter or margarine  
 Pimiento strips  
 1/2 cup buttered bread crumbs

Prepare pastry shell. Heat oven to 425 degrees. Cover inside of pastry shell with piece of wax paper; fill shell with raw rice or dried beans (to keep shell from buckling as it bakes). Bake 10 minutes; remove rice or beans and paper; cool shell. Snap off touch ends from fresh asparagus. Cook in boiling, salted water until barely tender. Or, cook frozen asparagus according to package directions. Drainwell on paper towel. Cut 2-in. tips from all stalks and set aside. Chop remaining stalks fine and scatter in bottom of pastry shell. Combine cream, eggs, salt and nutmeg. Pour into shell and bake at 425 degrees for 20 to 25 minutes. Remove from oven. Poke asparagus tips into center of pie to simulate small bundle. Drizzle with melted butter or margarine. Ring with pimiento strips; sprinkle with crumbs. Return to oven. Continue baking about 5 minutes or until thin-bladed knife or spatula inserted halfway between center and edge comes out clean. Let stand 10 to 15 minutes before cutting. Serves 6.

### Cucumber Ratal

2 medium-size cucumbers  
 1/4 cup chopped green onions  
 1/2 tsp. salt  
 1/2 tsp. ground cumin  
 2 cups (1 pt.) yogurt

Pare cucumbers and cut in half lengthwise; remove and discard seeds. Chop cucumbers finely. Mix green onions, salt and yogurt. Drain cucumbers well. Stir into yogurt mixture. Chill and serve in lettuce cups.

Good appetite.

### New Library Is Luxurious, Efficient

Have you seen the new carpeting? Dig that carpet. Those private study areas. Have you seen the coin-operated xerox machine? I'll never copy another article again. But I wish they'd turn down the air conditioning, I'm about to freeze! And it would be nice if they had a vestibule to put my coat and umbrella in.

The student assistants say the elevator surely beats carrying all those books upstairs, and they like that relaxing faculty room downstairs. The displays, attractively produced by Miss Irene Moser, represent the different divisions to be found in the new library. A great many new books have been ordered through a government grant, and some will soon be put on circulation.

The library staff is made up of Mr. Joe Dixon, Librarian; Mrs. Mary Stevenson and Miss Moser, Assistant Librarians; Mrs. Bud Lawing, Part-time Assistant Librarian; Julie Rutledge, Pat Earl, Pat Arrowwood, Jo Ann Icenhower, Betty Aderholdt, Jane Kimball, and Jo Ann Pace, Student Assistants.

Miss Moser and Mr. Dixon say that moving all those books this summer was quite a job. About a dozen students helped with the moving including Jean Wilkinson, Cindy Robertson, Jo Ann Pace, Kim Varin, Jay Barrowclough, Dennis Bauknight, Rusty Crowe, Junior Carpenter, Dave Cook, Buck Suzz, Robby McClure, Tommy Bradford, Rick Turner, and Mike Martin.

Many students have been coming into the new library, and you can't blame them. It is equipped with just about anything one could possibly need.

We at B.C. surely are proud of our new library. It is a most attractive and useful addition to our growing campus. Let's use it wisely.

## Science for You

BOB BROWN

**PROBLEM:** Why Are Some Clouds White And Some Dark?  
**NEEDED:** Several sheets of tissue paper and a light.  
**DO THIS:** Look at the light through the papers, and the papers will appear dark. Hold the papers so that the light falls on them and reflects to the eye, and they will look light.

**HERE'S WHY:** Clouds are made up of tiny droplets of water, each of which acts as a lens to bend light rays, and as a reflector to reflect them.

If the cloud is between us and the sun, and if it is thick enough, most of the light is reflected back toward the sun and the cloud looks dark. If the sun shines on the lower side, the reflections and refractions from the droplets come back to us and the cloud is white.

The tissue paper reflects and refracts the light much as the cloud droplets do, and the same phenomena may be seen by holding several sheets of the paper together, and looking at the light, then looking at the paper as the light shines on it and reflects.

This special "Science For You" feature is sponsored by Olin Mathliesson Chemical corporation at Pisgah Forest in cooperation with The Transylvania Times.

## Murray's

(From Front Page, Second Sec.)

The paintings were created for that purpose. To him they have served their purpose because the happening, so to speak, on the canvas is finished. The paintings are left to communicate and reflect ideas and pictures of the world, the Western Hemisphere or Brevard, North Carolina.

The ideas many of us have about modern art or, more commonly known as "abstract" are based on a few shallow ideas we have picked up from uninformed critics. The character of art is in constant and serious change. The changes, no matter how radical, are here. They are what is happening and they are serious and honest.

Mr. Murray's paintings reflect his beliefs. They are strong, serious and truthful. The paintings convey messages to everyone who takes a few moments to really look into modern art with an open mind.

When you think of prescriptions, think of VARNER'S. adv.

# Pontiac announces the great American sport for '68

Le Mans, '68 Coupe

Wide-Tracking has never been farther removed from just plain ordinary driving. One look at our stylish '68 Pontiacs should tell you that. One ride will convince you!

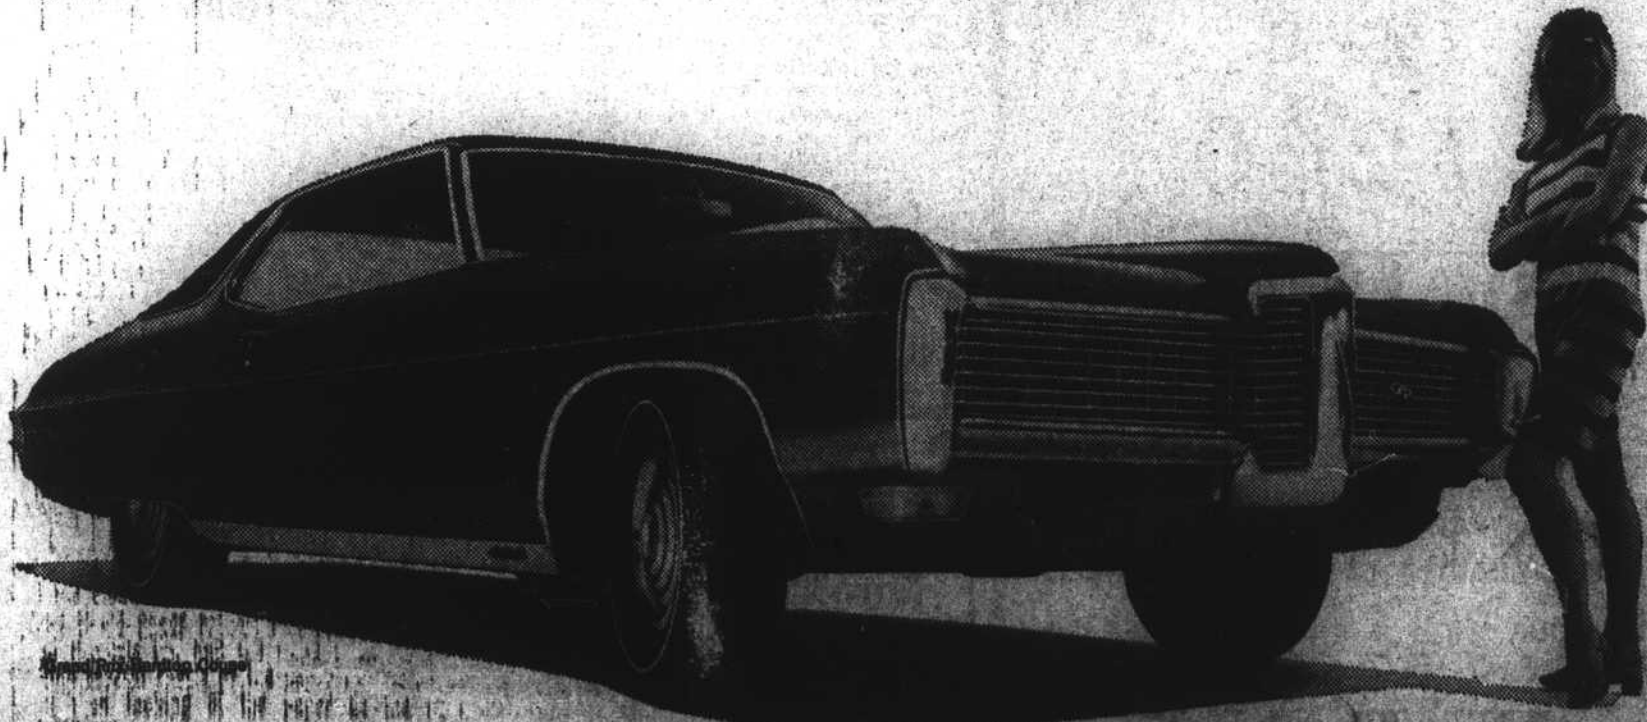

Our sporty new Tempests and Le Mans are new from the wheels up. There's a new 175-hp Overhead Cam Six. New sports car feel. Smoother ride. Superior stability and response. Disappearing windshield wipers on all GTOs and Le Mans. Even wider Wide-Track. And you can choose from two new regular- or premium-gas 350 cu. in. V-8's!

Our fabulous GTO boasts the neatest engineering innovation of the year—an exclusive revolutionary new bumper. It's the same lustrous color as the car. But it won't chip, fade

or corrode. And you won't believe what this bumper does until you see it with your own eyes!

Naturally, our new Bonneville, Grand Prix, Catalina, Executives and Venturas won't take a back seat to anyone! Especially with their bold new integral bumper-grilles that are nearly twice as strong as before. There's also new Wide-Track ride. Improved handling. Smoother engines. And more new features for your protection, like a buzzer that warns you when you forget your ignition key.

Isn't it about time you decided to give up plain ordinary driving? Don't fritter away another hour. See your Pontiac dealer today and start Wide-Tracking!
