The clubhouse will be built on a hill overlooking the golf course and the present pro shop. A new bath house will be built at the same time at the swimming pool site. There will be dressing rooms for both men and women with a covered cabana between. The clubhouse will be of brick and masonry construction with huge glass windows, which will enable the guests to view the golfers on the course and the scenic surrounding mountains. President Schlunz says the outlay for the buildings will be around \$100,000. The modern clubhouse lends itself to further expansion in either direction at a later date. Work Expected To Be Completed By Early June

Work was started this week on the construction of a new clubhouse at the Glen Cannon Country club.

According to President Paul Schlunz, the modern looking, one-story building could be completed in five to five and one half months, weather permitting.

L. E. Bagwell is the general contractor, and Henry C. McDonald, A.I.A. Associates, are the architects.

"Our target date is June 1st," the president declared.

The new clubhouse will be located on the hill overlooking the golf course, and above the present pro shop.

A new bath house will be built at the same time at the swimming pool site.

There will be dressing rooms for both men and women with a covered cabana between.

The clubhouse will be of brick and masonry construction with huge glass windows, which will enable the guests to view the golfers on the course and the scenic surrounding mountains.

President Schlunz says the outlay for the buildings will be around \$100,000.

New Postal Rate Increase Effective On January 7th

Increased rates for all classes of mail except parcel post and international mail will go into effect January 7th, Postmaster Charlie Patton, Jr. reminded postal customers today.

"Even with the new rates of six cents for first-class mail and 10 cents for air mail, postal service is still a real bargain," Postmaster Patton declared. "For six cents you can send a letter to any of the 50 states, to any United States territory or possession, to Canada or Mexico, or to an American service-man stationed anywhere in the world."

Postmaster Patton pointed out that the new rate for post cards will be five cents and for air mail post cards eight cents.

He said the added cent in the letter rate is a 20 percent increase compared to a 24 per cent boost in the rates for mailing newspapers and magazines and a 34 per cent hike for advertising circulars, "occupant" mail, and other material in the third-class category.

The new rate of six cents per ounce for first-class mail applies up to 13 ounces and the new rate of 10 cents per ounce for air mail applies up to 7 ounces. Under the new rate structure all first class mail over 13 ounces and all air mail over 7 ounces will be merged into a single category.

These heavier pieces of first-class and air mail subject to the single rate schedule will be delivered by the fastest available means of transportation.

A flat rate of 80 cents will be charged for all mail in this category. —Turn to Page Four
