Robert Clayton Ties Record At The Glen Cannon Country Club

By Staff Writer

On 2, 5, and 8; and bogeys on 1 and 9.

Robert Clayton, 19-year old son of Dr. and Mrs. Walter Clayton, tied the course record at Glen Cannon Country Club, shooting a 65 on Sunday, April 13. Only one other golfer, Bill Robinson, from Cashiers, and now on the PGA tour, has equaled this record.

Robert is a sophomore at Brevard College and is on the golf team. He scored the course-tying record playing in a foursome with Pete Wright, Vance Jackson and Marshall Gillespie.

On the front nine he had birdies on holes 3, 4, 6 and 7; pars

On the back nine he had birdies on 11, 13, 14, 16, 17, and 18; pars on 10 and 12; and a bogey on 15.

Robert is planning to go to the University of North Carolina at Chapel Hill next fall. The golf coach there would do well to get in touch with Robert. Some other school might just read about Robert's golf accomplishments.

Incidentally, Robert's score must have encouraged his dad, Walter, since he went out on the front nine shortly thereafter and shot a 31.

Study Made Of Transylvania's Food Service Program In The Schools

It has been the goal of the Transylvania County School Food Service Program this year to provide, to all students, a nutritionally adequate meal at a price they

can afford to pay. With this basic philosophy in mind, a cooperative effort is being made at this time to give the junior and senior high school pupils some choices within the framework of attractive and nutritionally adequate menus.

During the past few weeks, representative committees or groups have been working with the County School Food Supervisor and the lunchroom managers of the two high schools. These committees or groups have been composed of student council members, teachers, parents and principals.

Beginning May 1st, it has been decided and approved to set up a Choice A Type meal pattern. The pattern choices are to be in the choice of a protein rich food such as Peach Cobbler or Lemon Pudding. The vegetables and/or fruits for the day would meet the daily need for vitamin C and include vitamin A foods twice or more weekly. In addition, one serving of enriched or whole grain bread, butter and milk would be served with each meal.

If this Choice A Type Lunch is backed and accepted by students, parents and teachers, as evidenced by increased participation, the pattern will be continued next year and hopefully, will be extended to the elementary schools as quickly as equipment and personnel will permit.

A quick Type A sandwich lunch line, for those students who prefer it, is being studied and planned for operation next year as space and

Round-Up Made Of College's Sporting Events During Week

Brevard College's track team continued undefeated in junior college competition during the past week, taking a three-way meet with Wingate and Lees - McRae Colleges at Wingate April 12th.

Freshman Tom Bingley topped the Tornadoes' performance with 16½ points. Bingley won the 120-yard high hurdles, the 440-yard intermediate hurdles, the javelin and participated on the winning 440-yard relay team.

The win left coach Norm Witek's squad with a 3-0 conference record, and a 4-1 overall mark.

The Tornado golf squad suffered a one-stroke defeat at the hands of WCJCC conference-leading Gardner - Webb April 11th on the Glen Cannon Country Club layout in the only golf action of the week. The Tornadoes' score of 475

was the lowest turned in by any conference team in league competition during the 1969 season, but was not enough to turn back the GW linksmen.

Sophomore Robert Clayton took medalist honors in the contest with a two-over-par 74. The loss left the Tornadoes with a 3-3 record, 1-3 in league competition.

Brevard's tennis squad suffered its 16th straight defeat April 11th, bowing to Gardner-Webb at Boiling Springs by an 8-1 count. The lone Tornado victory was turned in by sophomore Tommy Andrews.

League-leading Wingate won over Brevard's baseball squad in a doubleheader April 12th by scores of 4-2 and 4-0 in contests played on the Sherill Athletic Fields. The Tornado nine stands at 2-4 in

equipment will permit.

The goal for North Carolina School Food Service Program participation is 95%. Could Transylvania County School Food Service not do as much or more? With cooperation and daily support of the School Food Service Program all pupils can have the necessary nutrients for vitality, attractiveness, alertness and physique which provides optimum health now and in later life.

Furthermore, a good school food service program provides a setting for learning good food habits, better health practices, a sense of responsibility, group contact and enjoyment, table manners, and a spirit of true thankfulness.
