

# Many Items Needed For 1970 Christmas House

This year's Christmas House is proceeding smoothly in its early stages. However, many items are still needed to make the 1970 Christmas House the biggest success ever.

Some of these items are: tables to be used to arrange

gifts on, clothing racks to hang and sort clothing, toys to make this Christmas House mean just a little more to the children it serves, and of course, clothing, foods and money.

Anyone having or knowing

where tables and clothes racks can be obtained is asked to contact Father Sheridan at the Sacred Heart Catholic Church, or Tom Tucker at 883-8164. All tables and racks will be returned promptly after Christmas.

Any organization or group

wanting to make a donation in labor or by means of contributions of clothes, food or money is invited to do so.

The Christmas House Booth is to be erected by the 10th of December on the corner of Broad and Main streets. This

will be a dropping off place for clothing and food.

"Show the true spirit of the season and search your closets and attics for outgrown clothes," say the Jaycees who are sponsoring the Christmas House.

## Farmers Should Advise ASCS When Farmland Changes Hands

Farmers participating in programs administered by the Agricultural Stabilization and Conservation Service should report to the County ASCS Office any sale or purchase of farmland, according to Glenn A. Whitmire, Chairman of the Transylvania County Agricultural Stabilization and Conservation Service Committee.

"I strongly urge those who have added to or reduced the size of their farms to get the in-

formation to the county office as soon as possible," said Mr. Whitmire.

He pointed out that when the size of a farm is changed, the ASCS records must be changed, including recalculation of farm allotments and bases. "We call it farm reconstitution," he said, "and if the reconstitutions have been made and approved by the county committee before sign-up time, it saves time and effort for everybody."

labor unions are free to coerce their members into almost any type of activity which can be construed as legitimate to the interests of the organization.

If an employee chooses to join a union, apparently he now advocates his constitutional right to free speech, his right to peacefully assemble, his right to work, his right not to engage in concerted activities.

The member becomes nothing more than a pawn to be used as the officials of the labor union see fit. This is tyranny in its worst form.

I am hopeful that the Senate will soon see fit to pass my and Senator Fannin's bill, to make these union fines an unfair labor practice. By so doing, it will re-establish the right of the man who labors by the sweat of his brow to make a living and to enjoy the rights guaranteed him by the labor laws and by the United States Constitution. Freedom demands no less.

## Kitchen Classics

carpet designed for the busiest room in the house

The kitchen... where neighbors troop in and kids troop out—where husbands putter around and wives spend nearly every minute of the day.

The people at Barwick Mills decided to improve the kitchen. So they developed a floor covering that is so great you'll just have to see it to believe it. Imagine. The luxury and comfort under foot of soft carpet—the dramatic change in appearance. Bold, bright colors. Patterns to mix and meld with any decorative motif. No more hands and knees scrubbing and waxing. Wipe up spills with a sponge. Pick up crumbs with a

vacuum. The only thing it absorbs is noise.

There's a lot to be said for a kitchen carpeted by Barwick. A built-in-rubber cushion makes standing much easier. There's no need for a separate pad and it grips the floor reducing skids and slides. Kitchen Classics... surprisingly inexpensive...
