Charles Carter Awarded Master's Degree In Electrical Engineering

Charles Norman Carter, son of Mr. and Mrs. C. B. "Dick" Carter, of Maple street Brevard, received his Master's Degree in Electrical Engineering at North Carolina State University at Raleigh last weekend.

An honor student, Young Carter is now working toward his Ph.D. at State.

He is a member of three honorary fraternities, Eta Kappa Nu, Tau Beta Pi, and Phi Kappa Phi and is a 1965 graduate of Brevard high school.

CHARLES CARTER

Jehovah's Witnesses At Convention

Jehovah's Witnesses from Brevard were at the Asheville High School this past Sunday attending the highlight of their three-day Bible Convention. The keep address was "What is Behind the Spirit of Rebellion?" by Watchtower District Supervisor, Mr. David J. Thomas.

Thomas told the 2,402 conventioners, "This is the age of rebellion. You see it on a personal level in the home. Youths rebel against the authority of parents, wives the authority of husbands. The neighborhood people against school authorities; citizens against police and government set up to assist in orderly society locally.

"The first rebel was Satan the Devil . . . he turned the first human pair away from God and caused them to become rebels too. Today he is primarily responsible for the wide spread of rebellion as he exercises influence over the masses of people, misleading them and producing imperfect conditions that stimulate rebellion among the people. The fact that millions do not believe he exists, suits his purpose well."

Thomas then concluded, "Unlike human governments or systems, God's Kingdom can truly satisfy the needs of all humans. Keep in mind that nothing you or any human can do will alter the world trend. God's Kingdom will do this literally and with absolute finality."

Terry Angelacos, presiding minister of the Brevard Congregation, said all delegates returned home safely and are eager to resume their ministry locally.

The number of employed women rose from 17.3 million to 29.1 million, a jump of 68 percent, between 1950 and 1969. During the same period, the number of men employed rose from 41.6 million to 48.8 million for a 17-percent increase.

These Days Or - Behind The News From Washington By - John Chamberlain

After listening to Dr. Edward Teller, the father of the H-bomb, I can see why Secretary of Defense Melvin Laird wants to cut the cost of Vietnam. The money will be needed for the poverty programs or big city rehabilitation. . . . Our own secrecy doctrine works against us: we do not even tell our own people what the Soviets are doing for fear that our sources of information might be compromised. The fear is misplaced, according to Teller, for the simple reason that Soviet intelligence is perfectly aware of what we know and how we have obtained it.

Our own secrecy doctrine works against us: we do not even tell our own people what the Soviets are doing for fear that our sources of information might be compromised. The fear is misplaced, according to Teller, for the simple reason that Soviet intelligence is perfectly aware of what we know and how we have obtained it.

In an interview Dr. Teller sounds desperate because he is fighting something in the atmosphere. We have a whole generation now growing up that is being conditioned to look upon technology as evil. Our two best scientific institutions, the Massachusetts Institute of Technology and Stanford, are under relentless attack for the help they have given the Pentagon in the past. M.I.T., says Dr. Teller, is now in the hands of its president, Dr. Jerome Wiesner, an "appeaser," as Teller describes him.

Wiesner's advice to President John F. Kennedy and former Secretary of Defense Robert McNamara was to let the Soviets come to parity with the U.S. in nuclear strength, so that neither nation would dare to attack the other. Parity in ships, planes and missiles would be all very well, but, as Teller puts it, we are "not in an arms race in any classic sense." The important element in a nation's strength is its ability to come up with new inventions. And the Soviets, so Teller tells us, are turning out more and more technologically competent graduates at a time that the U.S. is shifting to a view of education that looks upon military application of basic scientific discoveries as just plain wicked.

Our own secrecy doctrine works against us: we do not even tell our own people what the Soviets are doing for fear that our sources of information might be compromised. The fear is misplaced, according to Teller, for the simple reason that Soviet intelligence is perfectly aware of what we know and how we have obtained it.

This may be true for the moment, but by mid-1974 the Soviet nuclear submarine fleet will equal ours. The Soviets already have thirteen advanced, nuclear-powered, ballistic missile submarines that are the equal of our Ethan Allen class Polaris submarines, and they will double that number within the year.

Dr. Teller is crusading for an end to secrecy about all developments, both the Soviets' and our own. Secrecy, he says, is not security, for it prevents cooperation between Western scientists and so cuts down on the full potentials of technology. We need to know what the French, the Japanese, and the Germans know, and vice versa. The French, for example, have very advanced development of lasers, which we should know about. But where there is secrecy, there is separation. And only by the abolition of secrecy will the American people come to realize that the U.S. is on its way to becoming an inferior military power. Once they realize it, they might stop bad mounting technology.

Where there is no secrecy, as in computers, the U.S. leads the world. But the point that Teller makes over and over again is that in nuclear technology, where secrecy is strictly adhered to, we are falling behind the Soviets in every way. Our "sufficiency" will not long remain sufficient unless the attitude toward military inventiveness changes. An "open" policy would encourage such a change. No SALT talk decisions can assure parity in military technological fecundity, which is something that comes out of an attitude and cannot be stifled if the atmosphere is right.

NOTICE Change Of Address Form

Date Please use this form in making change of address in subscriptions. Name OLD ADDRESS NEW ADDRESS ZIP CODE

Your cooperation in this matter will be greatly appreciated. We are constantly receiving notices from the Post Office Department concerning second-class mail which is not deliverable, due to incorrect or insufficient address. Since each of these notices costs The Transylvania Times ten cents, within a short time it amounts to a needless expenditure of a considerable sum of money. We are, therefore, requesting individual subscribers, when making a change of address, to notify us immediately, giving both the old and new address. Thank you!

Oakland News Is Reported

By - Mrs. I. S. Sanders

OAKLAND — A family picnic dinner was enjoyed at the Union Cemetery last Tuesday by the children of the late Mr. and Mrs. Sammy McCall. Those attending were Mr. and Mrs. Burns Alexandria and Mrs. Vera Towe of Seneca, Mr. Lilla Hall and son, Jr. Hall and family of Brevard, Roy McCall and wife Lula from Oakpoint, Washington. After the picnic, the whole party visited their uncle and aunt, Mr. and Mrs. Sanders.

Our sympathy goes out to the Hinkle family due to the death of their mother, Mrs. Macie Hinkle.

Mrs. W. F. McCall and Mrs. Ralph Petrik attended the chicken supper at the T. C. Henderson school Saturday night and report a very good attendance with extra good food.

Mr. and Mrs. Bruns Alexandria and Mrs. Vera Towe of Seneca and Mr. and Mrs. Roy McCall of Oakpoint, Washington visited their Aunt, Mrs. Vedree Sanders, Tuesday.

Local Spanish Students Take State Exams

Fifteen students of Spanish at Brevard Senior High School recently took the National Spanish examination at the testing center at University of North Carolina at Asheville.

Some 190 students across the state competed in the Level II competition, and Miss Sharon DeLong placed 10th in the competition.

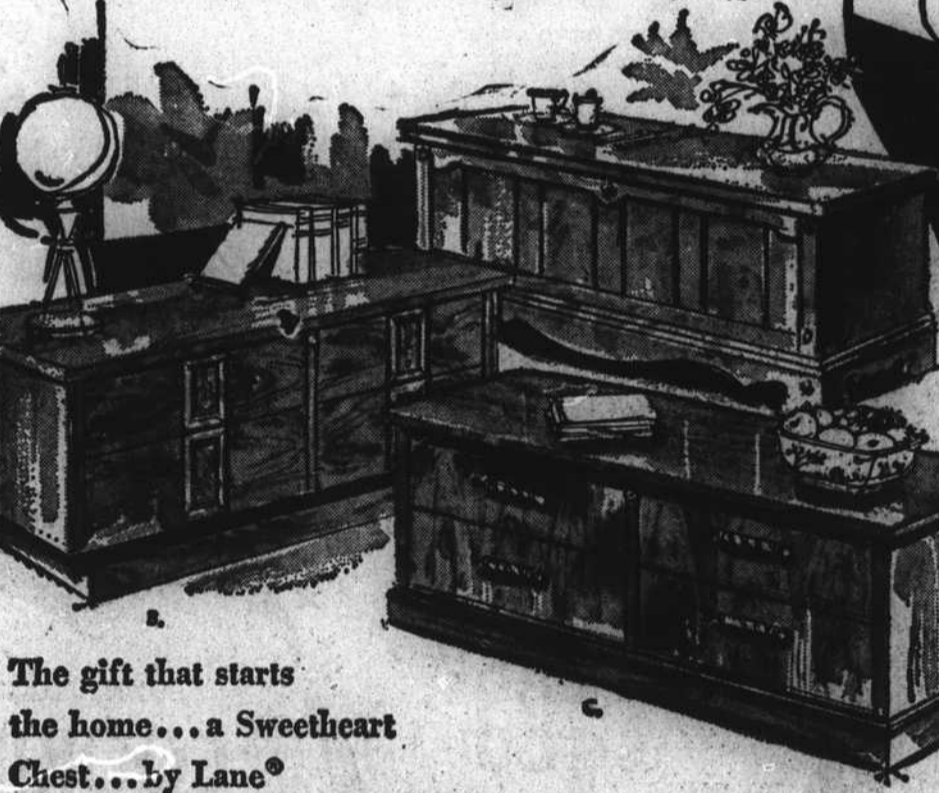

In Level III competition, 115 students participated and Miss Linda Britt placed 9th in the state.

Both are currently studying Spanish at Brevard High School and are students of Mrs. Carolyn Winchester.

treatment.

Mrs. Cora Cash has returned to her home after a few days visit to her daughters home in Marion.

Graduation Gifts

The gift that starts the home... a Sweetheart Chest... by Lane

Three out of four girls who receive Sweetheart Chests from their boyfriends get married within a year... and girls know this. What could be a better gift than one of these beautifully constructed chests for your girl on graduation day?

- A. #4052, Maple, 44 x 17 x 18 1/2 h. B. #4050, Walnut, 44 x 17 x 18 1/2 h. C. #4049, dark oak, 43 x 17 x 18 h. \*fine veneers and select hardwoods. A. #4050, dark oak, self-rising tray, 44 x 17 x 18 h. B. #4051, Contemp. walnut, self-rising tray, 48 x 17 x 18 h. C. #4052, maple, or pine, self-rising tray, 45 x 17 x 19 h. A. #4055, dark oak, or driftwood oak, styrene placers, upholstered top, 47 1/2 x 16 1/4 x 16 h. B. #4055, Walnut, upholstered top, casters, 47 1/2 x 16 1/4 x 16 h.
