

FROM THE EDITOR'S CORNER

By EDITOR JOHN ANDERSON

We know that it is spring, because about this time of the year Earl Fullbright, of Covington, Indiana, comes in The Times office to renew his subscription.

He and his wife are here for a big birthday. And that's the birthday celebration of his mother, Mrs. Lula Fullbright, who will be 87 on Friday.

Mrs. Fullbright broke her hip last September, but with the aid of a walker, she is getting around nicely now.

We know she is delighted to have Earl home. She has her son, "Red" around all the time to keep her in good spirits, but it gives her an added lift when Earl or Wayne can vacation in Brevard.

Wayne is with the technical department of the Air Force in Dayton, Ohio, and Earl, who went from here to Covington with Olin Corporation, is still with Olin.

We know our readers join us in wishing Mrs. Lula Fullbright a "Happy, Happy Birthday", and may she have many, many more!

Two little girls, according to "Exclusive," the Optimist bulletin at Tell City, Ind., were on their way home from Sunday School and were discussing the lesson.

"Do you believe there is a devil?" asked one.

"No," said the other, "it's just like Santa Claus — he's really your father."

We learn something every day.

We told Vernon Fricks we

Transylvania Times

needed some new windshield wipers.

He took a look and said our old ones just needed cleaning.

He told us to take regular baking soda and clean them real good.

We did. Now they work like new ones.

By the way, we have also discovered that Coca-Cola will cut the grease off your windshield as fast as anything.

The 10 worst enemies of human life and limb in the transportation field were recently itemized by the National Transportation Safety Board in Washington, D. C.

As a public service, the New York Sunday News condensed the list. The abbreviated form is offered here for your perusal:

Old or young, Mr., Mrs. or Miss Drunken Driver heads the parade, with an annual kill of possibly 25,000 persons on roads, on water, and in the air.

Insufficient safety devices of various types on automobiles and private planes.

Under-skilled young drivers. (Some 17,000 Americans aged 15 to 24 are killed on U. S. highways each year.)

Airport approach and landing risks.

Pilot error brought on by human factors and/or defects in aircraft design.

Pleasure boating. We were astonished to learn . . . that about 1,300 deaths a year occur in this recreation area.

Mixed traffic on many highways. Some gruesome effects: Trucks override cars . . . cars override trucks . . . heavy trucks stop too slowly (or too suddenly) . . . truck trailers jack-knife and deal deadly havoc to near-by passenger cars, sometimes in near-wholesale numbers.

Deaths at railway grade crossings. Fewer than 22 per cent of U. S. grade crossings have been treated for safety, despite many crusades by public improvement

geniuses as Robert Moses.

Pedestrian deaths: They increased in 1970 over previous years, though the overall highway death total declined.

Movement of hazardous materials such as explosives and gases via surface transportation.

Joke of the week . . .

A tiny but dignified old lady was among a group of people looking at an art exhibit in a new gallery devoted to contemporary painting. When one picture caught her eye, she inquired, "What on earth is that?"

The gallery attendant smiled condescendingly and replied, "That, my dear lady, is supposed to be a mother and child."

"Well, then," snapped the little old lady, "why isn't it?"

And we also like . . .

John was disgusted when the phone woke him at two in the morning. He picked it up and heard a neighbor's voice complaining, "Your dog is barking so loudly I can't sleep." Then, before John could reply, the neighbor hung up.

The following morning at two sharp, John rang up this neighbor and said, "I just wanted you to know that I don't have a dog."

Borrowed . . .

The sweetest music to a woman's ear is another woman playing second fiddle.

Card in an auto supply shop: "If you've got a back seat driver . . . give her a belt."

Why do shipments go by car and cargo go by ships?

Many freeways have three lanes: A left lane, a right lane, and the one you're trapped in when you see your exit.

You may be on the right track, but if you just sit there you'll be run over.

Failure is not necessarily missing the target but aiming too low.

The world is divided into two kinds of people—good ones and bad ones. The good ones decide which is which.

Freedom is not free — it is priceless.

Beware of half truth, you may have gotten hold of the wrong half.

The Bronze Service Recognition Medallion is the Heart Association's tribute to those individual volunteers who have contributed distinguished service in the fight against heart disease.

Several Injured In Two Major Accidents In County During Week

Patrolman Zeb Hawes reports that several persons were injured in two major wrecks in Transylvania county during the past week.

Five persons suffered injuries in a two-car accident on the R6man highway near the Pole Miller road intersection about 9:30 Monday evening.

The accident was investigated by Patrolman E. S. Haynes of Waynesville and Deputies Arthur Anders and Glennis McCall of the Transylvania Sheriff's department.

All five persons were taken to the hospital for treatment.

Ruth Whitmire was the driver of one of the vehicles, and a passenger in the car with her was Mrs. Dickie Paxton.

George Norman was listed as the driver of the other vehicle involved in the accident, and passengers with him were Ted Shook and Michael McCall.

The investigation of the accident is being continued.

According to Patrolman Hawes, the other accident involved one car, and it happened on Wilson road about 7:00 o'clock last Wednesday evening.

William V. Scott, of Pisgah

ed as the driver of the other vehicle involved in the accident, and passengers with him were Ted Shook and Michael McCall.

The investigation of the accident is being continued.

According to Patrolman Hawes, the other accident involved one car, and it happened on Wilson road about 7:00 o'clock last Wednesday evening.

William V. Scott, of Pisgah

Forest, was listed as the driver, and the Patrolman said the accident occurred when he lost control of the car in a curve and struck a rock embankment. He was pinned in the car for about 30 minutes. He has been transferred to an Asheville hospital.

Riding with him was Bob Jamerson who suffered minor injuries.

Greene Succeeds Mrs. Westwood As Executive Director Of ASCS

(Continued From Page One)

the county's farmers carried out a needed conservation practice long before the time conservation became a vital national issue. In addition to her ASCS work she has been active in church and civic affairs.

Mr. Greene, a native of Watauga County and who has a broad experience in Agricultural affairs, comes well equipped for his new position. In high school he was active in 4-H, FFA and

Forestry. A graduate of North Carolina State University, Greene was active in agricultural activities there. Mr. Greene's wife, Annette, is also a graduate of North Carolina State University and will be teaching math at Rosman High School this fall. The Greens are residing at Rt. 2, Brevard.
