**BREVARD'S MODERN WASTE WATER TREATMENT PLANT** — Shown in front of Brevard's modern sewage treatment facility are, left to right: Hubert Holden, Operator; Pat Kilpatrick, Trainee; Charles Holden, Operator; and Luke Morgan, Brevard City Manager. The plant was

built during the administration of former Mayor Raymond F. Bennett, at a cost of \$300,000. It is considered one of the best and most modern in the nation. A story on the plant and its unusual efficiency is featured in this issue, Section 4. (Times Staff Photo)

## Another Big Weekend At Music Center, Opera And Pops Concert

Temperatures averaged slightly below normal during the past week in Brevard, due mainly to the heavy overcast skies and near flooding conditions which have existed due to very heavy rains almost daily. Nearly four inches fell during the week. The week's temperatures were an average of 78 and 63, with the highest only 82 on Wednesday, while the lows stayed in the low 60s.

The month of July had 16 days on which rain fell at the Brevard weather station, and several other days which were cloudy and overcast without any rainfall. Total rain for July was 8.18 inches, and the total so far including July, is 39.11 inches.

### Metropolitan Star To Sing This Sunday

The Brevard debut of the Metropolitan Opera's sensational soprano Marilyn Horne, a Pops Concert centered around the music of Lerner and Loewe, and a production of Verdi's "Il Trovatore" with four imported professionals in leading roles add up to the strongest Festival program of the season this weekend (August 6-8) at the Brevard Music Center.

Already a star at La Scala in Italy and Covent Garden in London, Pennsylvania-born Marilyn Horne made her long-awaited debut at the Metropolitan Opera in March of 1970, as Adalgisa in a new production of "Norma." Her Act III solo curtain call resulted in a standing ovation and ten minutes of pandemonium. It was one of the most historic debuts in the long history of the venerable operatic institution.

Endowed with a voice of unique range "that goes from true contralto to soprano without a break" (Sergeant-New Yorker) Miss Horne is possessed of a unique versatility. Wagner, Berg, Stravinsky, Bach, Mahler, and Monteverdi are some of the extremes in her amazing diversified repertoire. As well known for her appearances with orchestras as with opera companies, Miss Horne was invited by Leonard Bernstein to appear in a performance of Verdi's "Requiem" in commemoration of Toscanini's 100th birthday. She is one of a rare handful of singers who can fill Carnegie Hall to standing room only.

To be accompanied by Henry Janiec and the BMC Orchestra, Miss Horne is featured in selections from Rossini, Gounod, Meyerbeer, and Saint-Saens. The program also includes the orchestral pieces "Til Eulenspiegel" by Strauss and Weber's "Freischütz Overture." Concert time for this Sunday matinee is 3:30 p.m.

Verdi's "Il Trovatore" is the Music Center's Friday night (August 6) program, and promises to be the best opera production of the season. It will certainly be the most professional since it provides a clutch of strong roles which the Brevard Music Center has gone to considerable lengths to fill with superior guest talents. All are young, already widely successful, and any one of them could burst into the highest reaches of operatic acclaim.

Marisa Galvany, one of the four guest professionals, needs no introduction to Brevard audiences. Last year they gave her a standing ovation when she sang "Aida." On the strength of that performance she was quickly booked for "Trovatore." Also

### Aldermen Rule

## No Beer Or Wine Will Be Sold In Brevard On Sundays

Although the recent General Assembly made drastic changes in the State's Alcoholic Beverage Control laws, there will be no beer sold in the City of Brevard on Sundays.

This action was taken by the Board of Aldermen at their regular August meeting Monday night.

Upon motion by Alderman Charles L. Russell and seconded by Alderman Dwight Moffitt, the Ordinances were amended as follows:

Chapter 9, Article 3, Section 9-39:

"Be it ordained by the Board of Aldermen of the City of Brevard that it shall be unlawful to sell beer and wine in the City of Brevard from 2:00 o'clock Sunday morning to 7:00 a.m. Sunday morning.

#### Free Parking Fridays

Edwin Mims, spokesman for some 23 merchants located within the City of Brevard presented a petition requesting a moratorium in the use of parking meters for a period of ninety (90) days to ascertain the effect it would have on business in the downtown area. City Manager Luke Morgan requested the Board to delay action on the matter until such time that a more thorough study could be made on the parking situation. The Board requested Mr. Morgan to make such study and report his findings at the next regular meeting. In the meantime parking will be free to everyone on Friday of each week through Monday, September 6, 1971.

Upon motion of Alderman

### 8.18 Inches In July

## The Weather Is The Same Old Story, Rain And More Rain

"Rain, rain go away!" This has been one of those summers!

Take the month of July for instance. Some 8.18 inches of rain fell here in the Brevard area. That's about twice as much as a normal month.

And the weather forecast... Cloudy skies and thunder showers.

Crops are suffering. The farmers can't get heavy equipment in the fields, and the situation appears that it will get worse before it gets better.

So far during the month of

August, the rainfall has measured 1.66 inches here in Brevard.

Upper Transylvania has suffered more rain than the lower part of the county, and the French Broad river has been out of its banks in several places. However, very little flooding has been reported.

The showers have caused slick highways in Brevard and Transylvania county, and last weekend there was a rash of minor accidents.

No serious injuries were reported by the Highway Patrol.

### Lions To Meet Thursday Night

Brevard Lions will meet Thursday night in the College cafeteria at 7:00 o'clock.

The program will be a film of the National Football league and one of a humorous nature.

All Lions are urged to attend by President Ed Rice.

### New Students Registering At Brevard Hi

Any new students who need to register at Brevard senior high school may now do so between the hours of 9:00 and 3:00 o'clock, according to Bill Stanley, the principal.

He also emphasizes that students desiring to change their studies should come out and do so immediately.

### The opening of the school schedule is as follows:

August 23rd — Orientation day for new teachers

August 24th—First teacher day

August 25th—Pupil assignment day

August 26th—Beginning of the 180-day term.

### Joins Taylor

## Mayor Campbell Opposes The TVA Flood Control Program

Mayor Charles H. Campbell has opposed the project. Mayor Campbell said, "I am thinking of all the citizens of this community, of your children and those that come over us." He said he has "prayed over this thing many times" and discussed it with the people concerned in the valleys.

Mayor Campbell said there was a need for flood control in Rosman, but that he would prefer flood control programs less destructive to the area's "many scenic farming valleys" than the Upper French Broad project, estimated at a cost of more than \$115 million over a period of years.

Work is ready to begin on the first link of the dam complex at Mills River, 20 miles northeast of Brevard

### Multi-Million Project

## Work Begins On Olin's New Paper-Coating Facility

The Ecusta Paper Division of Olin Corporation has begun construction of a multi-million-dollar paper-coating facility at Pisgah Forest. This will enable the company to supplement its line of fine uncoated lightweight printing papers with quality coated lightweight papers for publishing and commercial printing.

Coated stock generally is used

for four-color printing because the coating makes possible accurate, sharp and brilliant color reproduction.

For the past year Olin has successfully test marked its Glen-Cote coated lightweight printing paper for applications where bulk and weight reduction are significant, especially in view of recently raised postal rates.

The increased use of four-

color printing has been a contributing factor in heightening demand for this type of paper. The use of coated paper by the publishing industry has grown approximately 9 per cent annually during recent years. Direct mail advertising, in which color plays a major part, has been expanding by 2 to 3 per cent for the past few years. (Dollar volume for 1970 is estimated to be \$1.5 billion.)

### To New Hospital

## Duke Endowment Makes Three Grants Of \$125,000 Locally

Trustees of The Duke Endowment have made an appropriation of \$125,000 to the Transylvania Community Hospital at Brevard toward the \$3,217,000 cost of building

and equipping a proposed new hospital for the Transylvania region.

In a letter announcing the action, James R. Felts, Jr., a Duke Endowment Trustee and the Executive Director of The Endowment's Hospital and Child Care Sections, stated that the board and staff of The Endowment were confident that the new hospital with 64 general acute beds and 40 long-term care beds will be of great importance to the hospital in providing better health care for the citizens of Transylvania County.

Mr. Felts also stated that, subject to the availability of funds, two more appropriations of \$125,000 for each of two additional years will be made by the Trustees of The Duke Endowment. He added that, although the Trustees anticipated no difficulty in meeting the total \$375,000 commitment, The Duke Endowment is now subject to a four per cent excise tax on income as a result of the provisions of the 1969 federal Tax Reform Act which reduces the funds available for distribution to beneficiary institutions such as Transylvania Community Hospital.

Contributions of approximately \$1,800,000 from local

and other sources, according to Felts, is an important endorsement by the community itself of the need for the new hospital which is scheduled to be under construction during September.

In responding to the action by The Duke Endowment Trustees, Jack C. Dense, chairman of the board of trustees of Transylvania Community Hospital, expressed appreciation and stated that "we will soon have one of the

### Much Activity

## College Summer School Ends, Planning For The Fall Term

Summer school ends at Brevard College on Thursday, and plans are now being made for the opening of the Fall term.

New students will report on Sunday, August 22nd, and registration begins on Wednesday, the 25th.

Dr. Robert A. Davis, the president, says the campus has been a busy place this summer with summer school, seminars, conferences, sport camps, etc.

This week some 170 students

are attending the week-long training session of the South Carolina Association of Student Councils.

On Friday the Boys choir, sponsored by the Dilworth Rotary club of Charlotte, will come in for a weekend at the college and at the Music center.

The MYF of the Milford Methodist church in Salisbury will also hold a retreat this weekend on the beautiful campus of Brevard College.

### Program Highlights

## Local News Is Heard Three Times Each Day Over WPNF

Local news of the county area and Brevard news is heard on WPNF each weekday at 7:30 a.m., 12:00 noon and 6:00 p.m.

Lyds-McCrory Motors sponsors the local news at 7:30 a.m. while the noon news and that of 6:00 p.m. is presented by the Transylvania Times.

#### Other Programs

The Farm & Home hour schedule for the week is as follows: Thursday, Station Program; Wednesday, Jean Childers, Home Economics Agent.

Sunday morning church services are being broadcast during August from the sanctuary of the Brevard-Davidson River Presbyterian church. This program is presented at 11:00 a.m. especially for shut-ins and is broadcast through WPNF's remote control facilities.
