# Tommy Hooper, Jr., Has Unique Production, Marketing Program

A new concept in vegetable production and marketing is being undertaken by one of Transylvania County's young farmers. Tommy Hooper, Jr., son of Mr. and Mrs. Thomas L. Hooper of Route 2, Brevard, is cooperating with the Extension Service and Resource Management Farm Program conducted by the TVA in this project.

Tommy has planted approximately four acres in vegetables, which will be marketed on a pick-your-own basis. Some of the crops planted include: sweet corn, tomatoes, okra, squash, pole beans, onions, radishes, and lettuce.

These vegetables will be harvested by the buyers themselves at a substantial savings. In addition to the savings in marketing vegetables will be much fresher

## Laugh Corner

A fellow I know says he once got an invitation to a political party fund-raising dinner which included these words: "One hundred dollars per plate. Roquefort dressing 25 cents extra."

The teacher asked her pupils to name as many of the states as possible. One child named all of them and the teacher remarked how great it was. She said she could not have done that when she was the child's age. One of the other pupils piped up, "and there were probably only thirteen of them at that time."

This poor fellow was crying as he complained to his psychiatrist about his mother-in-law. "I can't take it anymore," he bawled. "She's driving me crazy. She puts her two cents into everything—the baby, the meals, the wall-paper! I'm ready to blow my top!"

The psychiatrist listened; then said: "There's no help for you unless you assert yourself and tell your mother-in-law to move out."

"How can I?" the patient shrieked. "It's her house!"
