

Glenn To Address Directors On Economic Development

(Continued From Page One)

Brevard.
Several suggestions were made concerning the possible decorating of the windows of some of the empty store buildings in Brevard, and these will be taken under advisement by the beautification committee.

A discussion was held concerning the large number of accidents involving persons going over waterfalls in Transylvania. It was noted that the number of persons falling to their deaths in such accidents seems to be increasing each year.

No action was taken on the matter, but other organizations who might be interested in support efforts to erect stern warning signs and other systems of warning at dangerous waterfalls in the county will be contacted.

President Massey presided over Tuesday night's meeting in the library.
