## Happenings At Rosman High

Recent engagements of students of R.H.S. include: Joan Owen to Mitch Frase and Diane Millard to Danny Powell. Congratulations!

Many of last years graduating Seniors have found time for a visit to school. We are always glad to have them come back for a visit.

Janet Dutton, a former graduate, spent a few hours visiting old friends and teachers on September 2. Janet is completing her education at Western Carolina University.

The Journalism Club made a most interesting trip to the Transylvania Times Office Friday, September 10. Plans for the printed paper and a schedule were set.

We were all pleased to receive a letter from Mrs. Kathleen Stocklen, former French and English teacher at Rosman High School. She wishes everyone the best for a "Super" year.

Lois Fisher, a graduate of Rosman High School and of Western Carolina University, with a degree in home economics, was a recent visitor here. She has just returned from a two months tour of Europe. She is now teaching at North Georgia College, Dahlonega, Georgia.

A former student and graduate, Eddie Laman, has returned here from a stay in Florida with family and friends. His plans are to spend several days with his parents in New Jersey before entering Western Carolina University this fall.

We wish a speedy recovery to Susie Mahoney, who underwent surgery September 22 in Transylvania Community Hospital.

Many students welcomed the opportunity to join the Junior Achievement workshop in Brevard. This is made possible through the combined effort of the many Transylvania County Industries.

Miss Robin Smith was crowned "Huddle Queen" on September 25. Congratulations!

## Colder Weather Is Reported At Cathey's Creek

By - Mrs. Ken Riley

CATHEY'S CREEK — Our section is still shivering under the cold weather we experienced the end of the week. We had our coldest morning on Monday with a low of 30 degrees, with a light freeze and much frost.

Ward Breedlove was taken to Mountain Home Sanatorium at Fletcher on last Thursday. He was accompanied by Mrs. Lona Breedlove and Mr. and Mrs. Tom McKinney and they reported he made the trip fine.

Mrs. Sallie McCall and son Junior Ethel Lee and Mrs. Breedlove visited him on Sunday. Then his pastor the Rev. Kermit Reece visited Mr. Breedlove on Monday and reported him improved some.

Mr. and Mrs. Auburn Waldrop and family spent last week with the latter's parents, Mr. and Mrs. Van Waldrop here. The Waldrop family reside in Charleston, S. C.

Weekend visitors of Mrs.

## Dr. Alec Wyton Will Give Lecture-Recital At College

Dr. Alec Wyton, organist at the Cathedral Church of St. John the Divine in New York City, will be at Brevard College on Friday, October 15, to give a master class and lecture-recital.

Those wishing to chat with Dr. Wyton will be able to do so at an informal luncheon in the reserved dining hall at 1:00 p. m.

Following lunch, a master class for organists will be held in the sanctuary of the First United Methodist Church. This class will be held from 2:30 to 4:00 and interested persons will be welcome.

Dr. Wyton's visit here will be climaxed by a lecture-recital entitled "The Organ as a Pulpit," to be presented at 8:00 p. m. at the Methodist Church.

Ethel Lee were her son Albert Lee and family along with Pat Brown from Lake Toxaway.

Sunday visitors of Mr. and Mrs. V. B. Waldrop were: Mr. and Mrs. Allison Orr and daughter Elaine and Mr. and Mrs. John Collins of Brevard.

Your writer had quite a scare

DR. ALEC WYTON

## High School P-TA Meets Next Tuesday

The Brevard High School P-TA will hold its first meeting of the year on Tuesday, October 19, at 8:00 p.m. in the school auditorium.

The membership drive for the year is also underway with registration beginning at 7:30 p.m. Dues are still 50 cents per person.

The meeting will give the parents an excellent opportunity to meet their children's teachers and to visit the various classrooms.

The new officers of the Brevard High School P-TA will also be there for all to meet. They are Greg Clark; President—Harry Hill; Vice-President; Mrs. Aileen Haney—Secretary; and Mr. L. C. Poore—Treasurer.

Mr. Clark urges every parent interested in his child's education and welfare to please attend P-TA this year.

When in need of job printing, call The Transylvania Times.

## Schenck Job Corpsmen Said Fine Asset To The Community

Since the Spring of 1965 the Job Corps Program in North Carolina has contributed significantly to the development of the National Forests in North Carolina.

Their efforts can be seen by visitors to the Pisgah Ranger District along Hwy. 276. A visit to this scenic drive is made a more memorable experience because of the work done at the Cradle of Forestry in America, White Pines, Coontree and Sunburst Recreation Areas by corpsmen at Schenck Civilian Conservation Center.

Improvements to group camping areas used by Boy and Girl Scouts, show the handiwork of these young men.

The communities surrounding the Civilian Conservation Centers near Brevard and Franklin have benefited from numerous community betterment projects done by volunteers from the two centers.

These young men are learning a skill that will prepare them for a more productive place in society. Another example of their work will soon be available when the new Ranger Office for the Pisgah Ranger District is completed next year. Also a new 180 unit campground on the

When you think of prescriptions, think of VARNER'S. adv.

Davidson River is under construction, and will open in the near future. These are examples of benefits the public receives from projects that are used to train these young men to be productive citizens.

These young people have provided another contribution that few people will see. They have spent hours battling hazardous forest fires. This past spring is a good example of the volume of resource saving effort spent. Nineteen forest fires were fought. One of these was in Virginia where the crew was sent to help on a large and very disastrous fire.

It is not by chance these young men were utilized to this degree. In recent years a shortage of manpower to fight fires in Western North Carolina has created a severe situation. The Corpsmen are physically fit and in good fire fighting condition. Their eagerness and energy have provided welcome relief to many a weary fire boss. Each firefighter has a minimum of 40 hours training before assigned to a serious fire situation. They are accompanied by seasoned veterans as crew bosses and overhead.

## Twaney On Scholarship To David Lipscomb College

Theodore Towle Twaney, son of Mr. and Mrs. Harrison E. Twaney, Woodside Dr., Brevard, is attending David Lipscomb College, Nashville, Tennessee, on an Honor Scholarship awarded on the Basis of his outstanding high school record.

The scholarship is the highest award available to freshman and is renewable annually until he completes degree requirements, as long as he maintains at least a B average while carrying a full load of courses.

Twaney was an Honor Graduate at Brevard High School, Brevard. He was also a member of the National Honor Society, Key Club, Spanish Club and Business Club.

He is majoring in accounting at Lipscomb and among more than 500 beginning freshmen enrolled in the college's fall quarter.

### The Report Card

Father (report card in hand): "Son, it's too bad they don't give a grade for courage. You would get an A for bringing this report card home."

**Because you deserve every chance...**

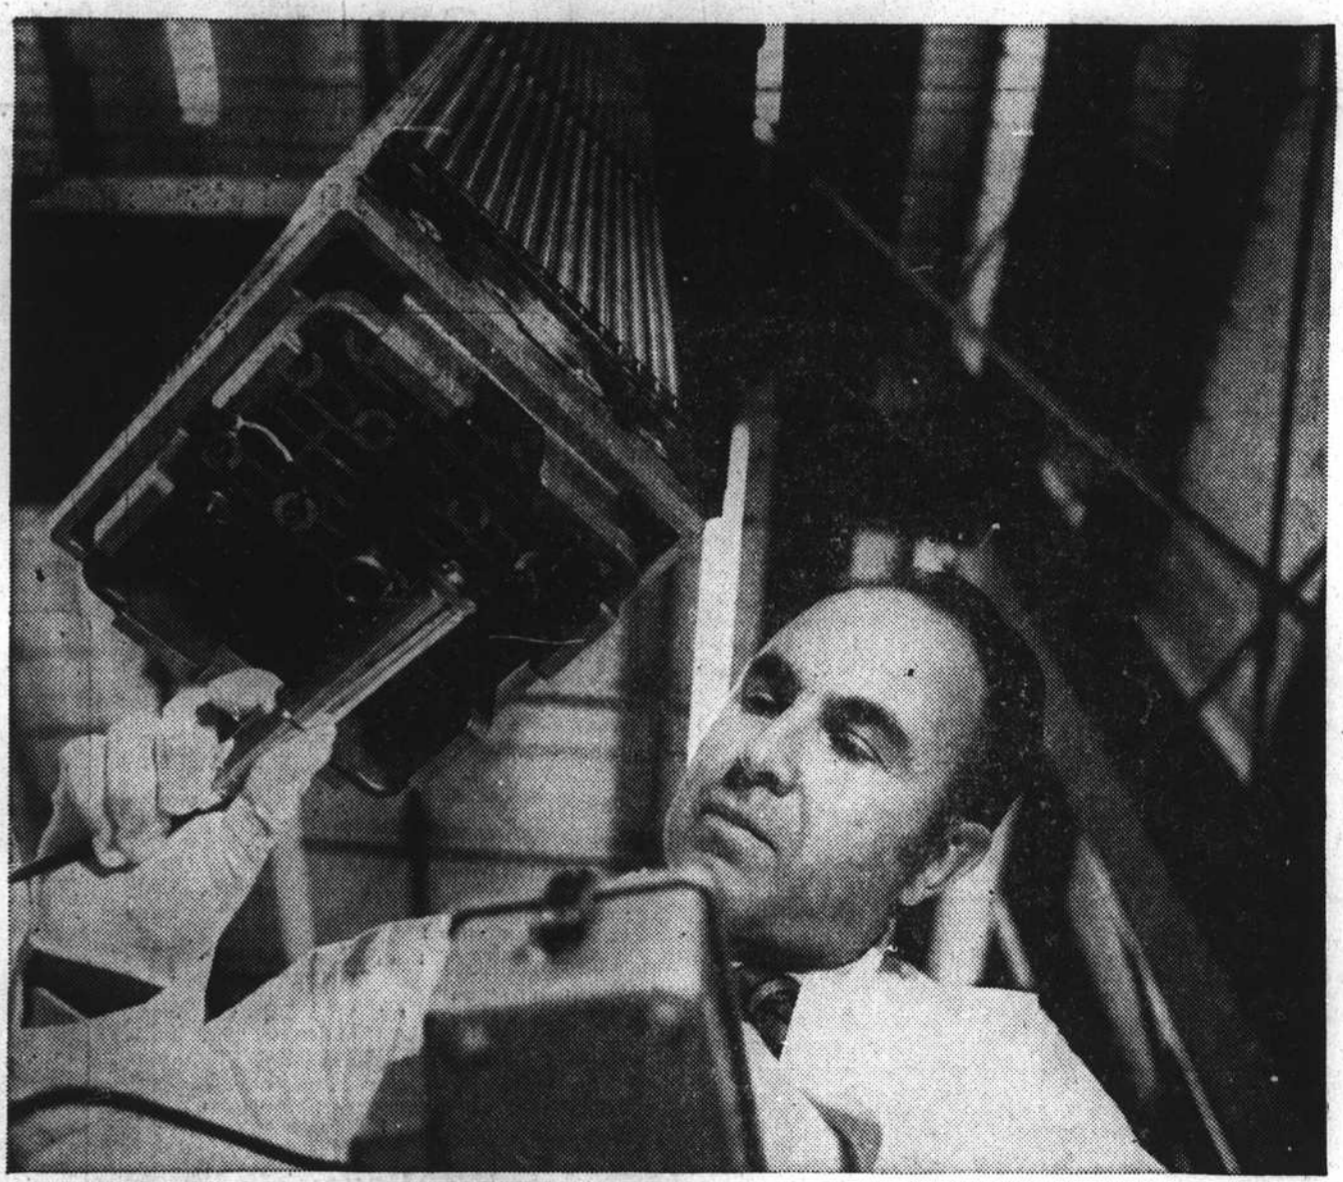

Jerome and Summey offers vital insurance protection for crucial times . . . dread disease coverage, including leukemia, cancer, and tuberculosis, as well as coverage for transplants of the human body's most vital organs.

This policy highlights no involved application, no medical examinations, no exclusions, and no deductible. New applications from ages 16 through 59. The individual or the entire family can be covered.

For all your insurance needs, see Jerome and Summey . . . because you DO deserve every chance.

## Lionel Lewis is a health physicist.

## He works for you.

His job is to make certain that our new nuclear-electric generating stations are safe — for our personnel, for the public, and for our environment.

And he's highly qualified to do the job. Only one out of six health physicists has risen to "certified" status. Lionel Lewis, who has been working with nuclear power for 17 years, has achieved that distinction.

As a member of Duke Power's staff, Lionel works closely with our engineers in the design, construction, and operation of our nuclear plants. He is involved with monitoring the radiation levels of the plant and components (such as the nuclear fuel assembly in the

photo above). He also makes other extensive studies including the natural radiation that already exists in the air, water, vegetation, earth and even wild animals near our plant sites.

The goal of our scientists: the most efficient operation with uncompromising total safety. As a result of their efforts, the radiation from our nuclear plants will be much less than from an ordinary TV set. And this is only a small fraction of the amount determined to be safe by the International Commission on Radiological Protection.

Duke Power's team of environmental scientists are making sure we stay good neighbors — to you and to Mother Nature.

**Duke Power**  
Making life a little better
