

# Brevard College Trustees Decide To Renovate Dunham Hall Basement

At the recent meeting of the Board of Trustees, a major topic considered was the renovation of the basement of Dunham Music Building. It has been announced that all architectural preliminary drawings have been approved, and the trustees have instructed the architect to begin the working drawings. The equipment priorities have not been approved; it is supposed that some equipment will be approved, however, at the next meeting of the Trustees in May. This equipment includes pi-

anos, organs, and audio-visual aids, and, although no renovation will be necessary there, a major recital organ for Dunham Auditorium. At this time it is hoped that many pianos, organs, and other high-cost equipment will be donated by friends of the college.

Included in the renovation will be a large instrumental rehearsal hall, a classroom, a pi-

ano laboratory, a student lounge, an organ and small ensemble practice room, eight teaching practice studios, and several storage areas. This basement section will greatly increase the functionality of the Dunham Music Building by providing much needed studios, practice rooms, a small rehearsal hall, and a large rehearsal room.

# New Students Are Welcome At Rosman Hi

The chalk green walls of R.H.S. may be jam packed to the rafters and air tight, but nonetheless, we are always happy to make room for one more. In fact, today we have seven more students. We hope these new faces are brightened by cherished memories of R.H.S. as the past years have shared with all of us.

Starting our new students welcome-air, we are happy to present Debbie Baker, a freshman, and daughter of Royce and Ruth Baker. Debbie tells us her former school was Brevard Junior High. She was very active in Glee Club. Her opinion of R.H.S. is very much appreciated. She says, "I like it here an awful lot, more than I thought I would. Most of the people are real friendly."

Also adding to our freshman role is Larry McCarter, son of Mrs. Thelma McCarter. Larry attended C. C. Wright E. School of North Wilkesboro. Larry thinks R.H.S. "is O.K."

Last but not least of our rising freshman, is Tony Meece, son of Rev. and Mrs. Jesse Meece. They formerly resided in Pickens, S. C. where Tony attended Pickens Junior High. He informs us he was not very active in clubs. We all know the change from schools may be confusing, but we are hoping to change Tony's opinion of R.H.S. "I do not know yet," to one of a brighter tone. We are sure he'll change his mind.

The sophomore class also has three new names added to its list. Brenda Orr is the daughter of Mr. Ernest Orr. She attended Frostproof Senior High School in Florida and was very active in clubs. She participated in Pep Club, Chorus, and Science Club. Her opinion of R.H.S., "I like it all right," pleases us.

The second addition was Rejeanna Owen, daughter of Mr. and Mrs. Oneal Owen. She came from Greenville, S. C. where she attended Travelers Rest High School. She was very active in J.V. Basketball, Debate Club, and Junior Garden Club. In her opinion of R.H.S., she says, "The change was great, but I like it and think that it's a fine school."

The third addition was Darlene Walker, daughter of Mr. and Mrs. James Walker. She came from Hickory, where she attended George Hilderbran High School. She participated in Junior Beta Club and F.H.A. Her opinion of R.H.S., "It is a very nice school. I like the people and the teachers. It is much nicer than the school I came from." pleases us.

## WNC Chemical Engineers To Meet At Glen Cannon, 19th

The Western North Carolina Section of the American Institute of Chemical Engineers will meet at Glen Cannon Country Club, Brevard, on Tuesday, October 19th, at 6:30 p. m. Members, friends and guests will socialize with 30 Clemson University Chemical Engineering Seniors. After a 7:30 dinner, all in attendance will listen to Robert E. Sparks, Professor of Chemical Engineering at Case Reserve University in Cleveland, Ohio, present a short course on "Inventive Reasoning."

The short course will involve examining an inventive experience, thinking through a few exercises, discussing the nature of problems, posing alternatives, and setting up solutions. The aim of the short course is to stimulate flexible thinking with each individual gaining experience in the attitudes of invention, the extent to which inventive reasoning can be organized.

On October 19th, plant tours have been arranged for the senior students from Clemson. The students will tour Olin Corporation and E. I. duPont de Nemours & Company, Cedar Mountain.

The Western North Carolina Section of the AIChE will also sponsor a refresher course in "Heat Transfer" for interested parties. There will be a small charge, depending on the number of persons interested. The

## Hardin Heads Duke Drive

The Rev. E. Wannamaker Hardin of Brevard has been named a class agent for Duke University's 1971-72 Loyalty Fun drive. One of about 450 such agents across the nation, Mr. Hardin will be contacting fellow Duke alumni for contributions to the fund.

Each year the drive is conducted under the auspices of the Duke University National Council.

Council chairman Fred C. Frostick, Jr. of South Charleston, W. Va., announced that nearly 2,000 volunteers will be involved in this 25th anniversary drive, including class agents, some 200 "teletthon" campaigners and more than 1,000 additional area workers.

The over-all campaign goal for 1971-72 is \$1 million, Frost-

DUNN'S ROCK LODGE NO. 267 A. F. & A. M.

Stated communication of the Dunn's Rock Masonic Lodge will be held Thursday night at 8:00 o'clock p. m. in the Masonic Temple, 211 - 215 East Main street. All members are invited to attend and an invitation is extended to visiting Masons.

Each year the drive is conducted under the auspices of the Duke University National Council.

He added that "The Silver Anniversary year is a particularly appropriate one in which to even surpass that total."

An added incentive to the drive, he noted, is that under the terms of the extended Ford Foundation Challenge Grant to Duke, Loyalty Fund contributions will be matched on a one to four basis.

Last year's fund campaign hit a new all-time high with \$900,682 being contributed by some 15,000 supporters.

## Perishable Eggs Need Extra Care

Eggs are one of the most perishable foods we eat. Heat is their natural enemy, causing quick internal breakdown and loss of quality.

There's another important care of eggs that few people realize. Eggs should be kept covered at all times. Those nice little egg slots built into your refrigerator may be good for saving space, but they're not good for your eggs. The best storage place is the carton in which you bought them.

Cartoned eggs are a protection to consumers in many ways. Egg shells are extremely porous. One very good reason for keeping them covered is so they won't absorb odors of other refrigerated foods, thereby developing an objectional off-taste.

When eggs are left uncovered under artificial cooling processes, they lose moisture and therefore quality. When cartoned, the moisture is preserved.

And one further step: save those plastic bread bags and slip the full carton or two cartons of eggs in each. Using your own code of different bread wrappers, you can rotate your eggs to continue to use the oldest first.
