1,400 Accidents Expected During Holidays In State

During this Christmas holiday, peace on the highways and good will toward other drivers will help keep you out of the 1,400 traffic accidents which the N. C. State Motor Club estimates may take 28 lives and injure 800 other persons on North Carolina's streets and highways over the long weekend.

The state will count its holiday highway toll from 6 p.m. Thursday, Dec. 23, through midnight Sunday, December 26, for a period of 78 hours. In a similar span last year, the casualty count came to 31 killed (18 on Christmas Day) and 656 injured in 1,145 accidents.

Leading causes of accidents were speeding, driving left of center, failure to yield and driving under the influence.

"Our traffic deaths this year are running well ahead of 1970," said Thomas B. Watkins, president of the motor club and the National Automobile Association. "It will take a near miracle in the short time remaining to prevent an increase in highway fatalities for the first time in three years—but it can be done!"

"The Highway Patrol will be out to curb speeders and drunken drivers. The traditional holiday parties will bring out the real menace—the social drinkers whose vision, reflexes and caution are impaired by just a small amount of alcohol. Have a Merry Christmas, but if you drink at all, let someone who doesn't do the driving for you!"
