Jaycees Entertain Their Ladies, Working On Projects

The Brevard Jaycees took time out from their civic activities around the county to host their wives and prospective members and their wives to dinner Tuesday night. The purpose of wives night was to show Jaycee wives what happens at regular meetings and to explain the workings of the club that keep their husbands away from home on numerous projects.

The Jaycees are also working hard on the two phrases they are handling for the Festival of the Arts; those being the Country-Western Show next Thursday night and a street Square Dance on the next night. Don Cheek and John Duke are the chairman respectively.

The winners of the Jaycee trip to Disney World and the 100 gallons of gasoline will be announced this week. The contest has been the most success-

ful one in Jaycee history. All proceeds will be used for civic projects in the county. Ken Dockens has been chairing the project.

The Jaycee softball team closed on a winning note last Thursday night and is looking to upset a few teams in the upcoming tournament.

Cotton Demand

U. S. cotton is in heavier demand abroad this year. Foreign consumption is up, indicating that people of many nations are more able to buy consumer goods. Another reason foreign sales are up is poor production in some countries. China, for example, experienced a sharp decline in production, creating a heavy import demand.

HERE'S ONE WAY TO ADD MORE BEAUTY TO YOUR HOME

In the old days, people were content to let ceiling and wall lights do their lighting for them. But today individual lamps are playing an increasingly important decorating role.

You can automatically increase the beauty of a room two ways every time you add one correct lamp.

First, the lamp can be pretty in itself adding attractiveness to a room. Second, the lamp can both cast direct light on an area you want lighted, and at the same time help create the pleasing overall glow you want.

The trend today to more lamps is a good trend because lamps can do so much. They give you both function and fashion.

Also, lamps can add special notes of individuality to a home. All lamps don't have to match so you can give vent to your own decorating flair when choosing lamps for the various rooms in your home.

Generally speaking, you don't want dim, dreary rooms, and you don't want harsh, glaring rooms. The right lamps will solve those problems.

If you would like help in picking out the right lamps to give you both good lighting and decorating beauty, stop in. We'll be glad to serve you on these or any of your furnishing needs.
