Youths Aid Conservation Efforts In 4-H Program

Numbered among the strongest proponents of environment.

Some of the young people find their career choice through their work in the 4-H conservation of natural resources program. Club and group recognition included county and state certificates and a \$50 cash award to one county in each state reporting the most outstanding 4-H conservation program.

Working individually and in groups, the 4-Hers clear waterways, roadsides and parkland of litter and debris and help in wildlife conservation and protection. They participate in reforestation projects, in community and rural development planning and aid in action programs.

Youths in the Cooperative Extension Service supervised program gain increased appreciation of the nation's natural resources. And they are prodded to seek ways to use such resources wisely, the basis of good conservation practices.

Almost everyone looks for bargains... especially in these days of spiraling costs and prices. However, if you own property and would like to build, you'll have no problem finding a real bargain in a home... Jim Walter builds them. In fact, he has built nearly 200,000 "bargain" homes for American families. It takes more than just price to make your new home a bargain... it takes quality design and materials and good workmanship combined with price. Jim Walter will custom-build almost anywhere that you own property... using the time-honored technique of board-by-board, nail-by-nail construction. Moreover, many of the materials, such as "wood-made-better" hardwood siding, will be superior, long-lasting products of today's modern technology.

Jim Walter completely finishes the outside of your home including... FOUNDATION, ROOFING, SIDING, WINDOWS, DOORS, PAINTING. Then, you have options to purchase inside materials and installation of... ELECTRICAL WIRING AND FIXTURES, PLUMBING, FLOORING, WALLS, DOORS & TRIM, KITCHEN AND BATH FIXTURES.

When Jim Walter installs all of these interior options, you'll need only to paint or paper walls, paint trim, connect to outside utilities and move in. Or you may purchase individual materials packages, install them yourself and save even more. Either way, the cost can be included in your mortgage.

We want you to know the full cost and precisely what your monthly mortgage payment will be. We also want you to know more about the superior materials and the quality construction methods we'll use. Then... after you have the facts... you decide if Jim Walter should build your new home. Call, visit or send the coupon to the nearest Jim Walter Homes display park for complete, no obligation information.
