FROM FRANCE

Denim originated in Nimes, France, with a weave tough enough for workers in the field, and colorfast enough for sailors and fishermen at sea. The weavers dyed the warp direction, but, to save costs, left the fill direction undyed. This accounts for the white flecked and blue look characteristic of this cloth. The name "denim" is a shortening of the French words, de Nimes, meaning "of Nimes."

Public Hearing On Proposed New Jail To Be Held At Courthouse Next Monday

A public hearing is scheduled next Monday night, September 16th, in the courtroom of Transylvania County Courthouse here. The hearing will begin at 7:30 p.m. and its purpose is to receive public comment on the proposed bond issue to build a new jail.

Plans for a new jail began back in 1966. It was at this time that the Transylvania County Commissioners were notified that the jail failed to meet many health and safety standards.

The incumbent commissioners hired the architectural firm of Williams & Associates and over a period of years, several different plans were drawn.

New jails seldom generate much public enthusiasm and consequently plans were allowed to gather dust as the State failed to issue any final condemnation of the present facility.

The public's attention was caught by other building needs in the County.

Transylvania Community Hospital launched a successful fund raising program enabling a new hospital facility to be constructed.

Soon afterward the need for new school buildings could no longer be overlooked. Many citizens worked long and hard to convince the public of this

pressing need. After an initial failure, the public in September 1972, approved a bond issue to build new schools which are now under construction.

Eight years after the initial planning, the current jail is even further away from meeting standards and the State has warned the Commissioners, on numerous occasions that the facility will have to be replaced.

In recent months, the State has forbidden the Sheriff and the Commissioners from confining women or people under 18 years of age in the jail. These two groups are presently being transported to the Henderson County Jail when necessary.

The Board of Commissioners appointed a special study commission to tell them what alternatives they had concerning the jail, especially asking if it would be cheaper and easier to simply renovate the existing building.

After much questioning of the jail inspector and consulting architects, the Commissioners were told that the cost of renovation would be very close to the cost of a new facility, indicating that it would be pointless to spend so much money and still not have a really modern facility.

Another alternative discussed was the addition of a new floor to the present building. But, this

also was rejected because of its cost and the increased congestion that would be caused in the already crowded Courthouse.

The Jail Commission and the Board of Commissioners recently came to the inevitable conclusion that the only course was to build a new facility diagonally across the street from the present jail. A

model of this proposed building is on display in the Clerk of Court's office.

Any persons questioning the need for a new jail are encouraged to get in touch with the County Commission office and if they so desire an inspection of the jail will be arranged.

Mrs. Katherine Anderson Appointed To Serve On Brevard ABC Board

(Continued from Page One) ABC Board to serve as chairman.

In other action at Monday night's meeting, Charlie Himes was re-appointed to serve on the Brevard Planning and Zoning Board for a period of five years.

Mayor Charles Campbell presided over the meeting, and opened it by asking those present to stand in silent prayer in memory and respect to Robert Kilpatrick, a long and faithful member of the Brevard Fire Department, who had died earlier that day.

Several other items, mostly concerning zoning, were discussed during the busy session.

City officials attending Monday night's meeting included Mayor Campbell, Alderman Cornelius Hunt, W. M. Melton, Dwight

Moffitt, Mark Osborne, and Charles Russell, City Manager Bill Slough, and City Clerk Mrs. Opal Hahn

MAKE THREADS

Two Columbus County teenage boys, Willie Marley and J. Boyce Brown, signed up for a summer sewing class.

Neither boy had tried to operate a sewing machine before, but it didn't take them long to catch on. Mrs. Ann Hall, assistant home economics extension agent, observes.

Each lad made a Dashiki, trimming it with embroidered braid.

Willie and Boyce are so proud of their accomplishments they have already purchased fabrics for their next garments, the agent added.

Laminated beams can span more than 300 feet.
