**CHRISTMAS HOLIDAYS BEGIN!!!**

### Blantyre Women Donating

By MRS. ADA REED

Let us remember our Lottie Moon Christmas Offering for foreign missions.

Two questions were once asked: Who was Lottie Moon? and why a Lottie Moon Christmas Offering?

Lottie Moon was appointed and served as a foreign missionary in China from July 1873, to December, 1912. She left her home, gave her life, and met many hardships. She encouraged Baptist women to organize and plan a way of giving for foreign missions.

Lottie Moon was born in December, reached China in December, and died in December. Seems easy to see why our Christmas Offering should be named for Lottie Moon.

Mr. and Mrs. Raymond Reed, Mrs. James Marksberry and daughters Sonya, Angela and Cynthia have returned to North Charleston, S.C. after visiting with Mr. and Mrs. John Reed.

Mr. and Mrs. Earl Owen visited with her sister and brother-in-law Mr. and Mrs. Edward Osteen of Hendersonville recently.

Mr. and Mrs. Max Grant of the Boyleston section visited with her grandparents Mr. and Mrs. John Reed recently.

Lamar Morgan of Hendersonville visited with his mother Mrs. Bertie Morgan last Saturday.

We are sorry Mrs. Thurman Dockery is on the sick list. We hope she will be feeling much better soon.

We extend our sympathy to the family and friends of Fred Talley formerly of this county.

### Quebec Show On Saturday

Eldon Owen and his band will present a Blue Grass Music show at Quebec Community Center Saturday, Dec. 14, at 7 p.m.

This is being sponsored by the community club. Admission will be \$1.00 for adults and 75 cents for children.

A food sale will begin at 6:30.

The public is invited to attend.

### Ever-Easy Evergreen Care For Christmas

Nothing can eclipse the festive charm and beauty of a richly decorated, fragrant, live-cut Christmas tree.

Whether your Christmas tree goes up weeks in advance or stays up through the Twelve Days of Christmas, taking care of it properly is the key to enjoying it - you can keep it fresh, fragrant and tightly-needed throughout all the festivities.

Be sure to start with a fresh tree. When shopping around, run these two simple checks. First, bend the needles on the tree; if they are pliant, the tree is fresh. Then, gently tap the base of the tree against the ground. A fresh tree will hold its needles fast; avoid one with cascading needles!

Try to keep the tree outdoors after you bring it home until you're ready to set it up for decorating. Immediately saw off about one inch on the diagonal from the tree trunk. This eliminates clogged resins that form at the base of the tree which could block it from absorbing water.

Place the tree in a bucket of water mixed with an ideal tree preserver, Prolong - the proper ratio is one capful to each cup (8 ounces) of water. Prolong increases the water absorption and "feeds" the tree necessary nutrients and carbohydrates. Spray the tree with water often.

When you bring the tree inside for decorating, it should be placed in a cool spot in the room - away from heaters. Secure it in a water-holding stand and watch the water-Prolong level carefully. A tree may absorb as much as a gallon of water a day.

One idea that will further simplify the tree's day-to-day upkeep: try to use unbreakable Christmas bulbs, at least around the bottom of the tree. It will reduce the incidence of bulb breakage, prevent the children from getting scratched and keep the sweeping chores to a minimum.
