RALEIGH — Recipes often call for ingredients that need to be chopped, grated, diced or minced before you can use them.

Often it's possible to do this time-consuming work ahead of time, and freeze the ingredients until they are needed.

Here are some time-saving examples from extension food specialists. North Carolina State Uni-

Cheese may be grated a pound or two at a time. One pound makes about four cups of grated cheese. Measure the grated cheese in one-cup units -or in the amount you will want most often. Put in air-tight containers or wrap in moisture-vaporproof plastic wrap and freeze.

Chop a pound or two of onions at a time, either with a knife or in your finely chopped pieces. Wrap in 1/2-cup or 1/4-cup units in air-tight plastic wrap. Place packages in a glass freezer jar that can be tightly closed. This is necessary to keep the onion odor from escaping. Freeze.

Green peppers can be chopped and frozen; parsley can be minced and then put in the freezer. Both should be packaged in convenient sized units, then put in air-tight containers.

Bread crumbs can be kept on hand in the freezer, too. Save bread heels until you have several. Crumb them in the blender, or between two sheets of wax paper with your rolling pin. Store in an air-tight freezer container. If you like, you can lightly butter the heels before crumbling them to make buttered crumbs.

Spare Time Activities Useful at Retirement

By JAN CHRISTENSEN N. C. State University

"What can I do in my spare time that will be useful when I retire?" Herbert Taylor of Goldsboro has found a number of answers to that

question, including woodworking. Taylor doesn't work on the usual conventional items from patterns or by duplication, explains Mrs. Evelyn Raper, home economics extension agent.

Instead, he experiments with shapes, sizes and kinds of wood and follows his instinct to create unusual lamp bases, candlesticks, plaques and similar

poems, handsomely printed in script and bordered with a floral design, he makes plaques. Whether he sells them or not, making these items

Over 1,300 persons, attending the Craft Corner a craftman's fair in Davie County, helped contribute to the Association for Retarded Children.

The Craft Corner, featured 33 individual exhibits showing the work of 38 craftsmen, says Nancy Hartman, home economics extension agent.

Each craftsman donated a percentage of his sales to the Davie County Association for Retarded Children, she added. This year's check was over

The Craft Corner began in 1969 with a seven-man exhibit sponsored by the Davie County Extension Service.
