A Monster Shark.

Capt Lorenzo Willis with two boats crews killed a large shark, a few days ago, in the Ocean off Wreck Point near Beaufort. The monster was killed after a desperate fight lasting two hours. When he was first struck with the harpoon he jumped his full length out of the water. After being killed he was towed ashore, measured and dissected. He was 18 feet long, 8 feet across his breast, und weighed two tons. Upon cutting him open, his stomach was found to contain 6 sharks, the smallest measuring 6 feet in length. This ugly fellow must have been ravenous indeed, in fact he was a regular cannibal. His mouth was large enough to roll a kerosene barrel into with room to spare He had three rows of teeth, one inch wide and two inches long. Our oldest fisher-

Of course you do; well then you are aware

that in the ordinary corset the greatest

discomfort arises from the fact that most

For a number of years I have suffered untold agony from the effects of blood petson. I had my case treated by several prominent physicians, but received but fittle, if any relief. I re o ted to seveal patent medicines, spending a large amount of money, but yet getting no better. My attention was attracted by the cures said to have been affected by R. R. R., and I commenced taking it merely as an experiment, having but little faith in the results. To my utter surprise I soon commenced to improve, and deem myself to-day awell and hearty person—all owing to the excellent qualities of R. R. B. I cannot commend it too highly to those suffering from blood poison.
