Uncle Jerry Rusk who is the secretary of Agriculture in Harri-on's Cabinet and is the official representative of the Farming interest in the executive department of the and unlimited comage; denounces U.S. Government, is now prominent in politics because he represents the most numerous class of our population, and Harrison is using him as a tub for the agricul tural whale. The tarmers, we are sorry to say are too often the blind followers of selfish leaders and easilv follow an idea when it furnish es a figure-head Harrison has been indoctrinated with this idea and therefore he takes Uncle Jerry Rusk, the repretative of the Farmers with him when he goes a junketing, to bait for the farmers vote, and now when he has gone

to Cape May for a bath he is going to send uncle Jerry through the West to promote his popularity and to expend \$670,000 which now in now in his hands for weath er appointments, but will be used specially for the furtherance of Harrison's aspirations. Between Col. Polk and Uncle Jerry the farmers are likely to get much taffy.
