LOCAL NEWS.

Ho for Nags Head! The old place cannot be downed. It is one of our necessities.

Miss Ada Melick, after a prolonged visit to friends in Raleigh and Petersburg has returned home.

At a meeting of the Democratic County Executive Committee on Tuesday, T. B. Wilson, Esq., was re-elected chairman.

Mr. Thomas Albertson, son of Judge Albertson, left on Tuesday for Raleigh to take a position in the army as a pharmacist.

Our kind friends, A. B. Seely & Son have moved to the store lately occupied by W. T. Davis, in the Hughes building, on Main street.

We had a pleasant call from Lucullus McMullan, of Hertford on Saturday. His health has been poor for sometime, but he is now improving, we are pleased to learn.

The tobacco business is a promising industry of this town. Messrs. C. W. Stevens & Co. have been unable to keep up with orders for their favorite brands of cigars for the past few weeks.

The special term of Pasquotank Superior Court is in session this week for the trial of civil suits which were left over at the last regular term. Judge Timberlake is holding the court.

Of the colored troops who left here under command of Captain Mebane, several have returned, having failed to pass the physical examination. We had heard the company spoken highly of for its physical statur qualities.

We had a pleasant and instructive call on Monday from Hon. C. B. Pendleton, of Key West, Fla. He is better posted on the Spanish war in Cuba, and its forecasts than any one we have met. His forecast is of a prolonged war.

Mrs. C. C. Allen and daughter, Miss Nannie, went to Nags Head to join their family on Wednesday. We hope the sea, sand and air bath at that delightful seaside resort will soon restore Miss Nannie to her accustomed health and sprightliness, and as she is a distinguished elocutionist, we beg to recommend to her the example of Demosthenes, who practiced elocution by the ocean surf to give strength and volume to his voice.

Mr. C. N. Mann complains of an article signed "Bicycle Band" in our county news last week, in saying that his wife lost money overboard in a trip from East Lake, and asks for the author of the statement. We cannot now recall the person who sent us the news, but in referring to it we see that the person who lost the money was Miss Mary Mann and not Mrs. Mann. There is evidently a mistake somewhere, but we are glad, not a material one.

Watermelons have arrived. Five colored recruits left here for Fort Macon Tuesday.

Mr. Andrew Hathaway is recuperating at Nags Head on Spanish mackerel.

The steamer Thomas Newton will make an excursion to Nags Head on Sunday.

The family of W. H. Zoeller are at Nags Head, where they will spend the summer.

Our old friend, C. H. Brenneman, of Baltimore, made us an enjoyable call on Wednesday.

Pointexter street is now a nice advertisement of the town commissioners. How will it be next winter?

A newspaper is suggested for Mantoloking. A newspaper was published at Nags Head in 1838, called the "Sand-fidler."

Mr. J. B. Blades is preparing to erect a large brick building on the vacant lot of the Griffin property on Main street.

We understand that the Superior Court, now in session here, is dragging along like a wounded snake, and may continue two weeks.

Mr. David Cox, of Hertford, son of our old friend, Dr. David Cox, deceased, made us an appreciated call yesterday.

Prof. W. M. Hinton is in the lecture field, with his address on "The Powers that Move the World." From the use of the plural, "Powers," we fear our friend has forgotten the greatest Power from birth to death bed. As mother, sweetheart, wife, and nurse in the dying hour, she is the one great lever that moves the world. God bless her. Professor Hinton has delivered his lecture in this city, Hertford and Roper to good and appreciative audiences.

We had a pleasant call on Monday from Mr. Roscoe Turner, a member of the Elizabeth City Naval Reserve, who was detailed with several others for the signal service at Hatteras. He likes his position and speaks in kind and complimentary terms of the people of Dare, and is pleased with his situation in the military service. He has some original ideas upon the mosquito question, and he describes the Hatteras mosquito as the most ferocious, the most persistent and the most musical of all the mosquito family.

We had an agreeable call on Tuesday from E. F. Simmons Esq., the blind lawyer and author of Washington, N. C. We have not seen Mr. Simmons for several years and we are more and more satisfied that blindness has its compensations in more profound thoughtfulness and in closer touch and sympathy with our fellows. Mr. Simmons can see much deeper into a millstone now than he could before he lost his sight. He contemplates entering the lecture field and we look for his success in the rich harvest field.

Take Roberts tasteless 25c chill tonic. Every bottle guaranteed. No cure no pay. At all druggists.

Must Be Mistaken.

Including the departure of our colored troops Wednesday, Mr. A. L. Jones says he has seen the departure of soldiers from this town for three wars. The first occasion was that of the Mexican War in the early forties when troops were mustered on the grounds now occupied by our courthouse.

Is not our venerable friend lying under a mistake. Or may he not have in his mind's eye the war with Great Britain of 1812-1814. In the juvenile period of our life we were familiar with this community, and we do not recall any mustering of troops in this town for the Mexican War. Wilmington, we think, was the only place in North Carolina from which the troops were mustered and embarked for Mexico, in 1846. We recall, that Col. Paine, of Edenton, who commanded the North Carolina regiment, left Raleigh after the adjournment of the Legislature, of which he was a member, for Wilmington, to take command of his troops. He was our intimate friend and we knew of his movements when he went to Wilmington.

Col. Jones has an older and perhaps a more accurate memory than ours, but we respectfully suggest a review of his facts. Major Nixon White, of Hertford, Perquimans county, was under Col. Paine in command of the North Carolina Regiment, and we recall the fact that he went to Wilmington soon after Col. Paine to take his place as Major of the Regiment.

If your blood is thin, appetite poor, troubled with night sweats, a bad cold or LaGrippe take Robert's chill tonic. All druggists.

NO CURE-NO PAY.

That is the way all druggists sell GROVE'S TASTELESS CHILL TONIC for Malaria, Chills and Fever. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c.

SANTIAGO SURRENDERS.

WASHINGTON, July 14, 1898.

The War Department gave out the following statement late this afternoon:

"Toral has surrendered Santiago. He has accepted the terms offered by the United States, which were simply to send the Spanish troops back to Spain at our expense. There will be no more fighting at Santiago, and no more in all Cuba until the fall."

The surrender of Santiago is said to mean that Spain will sue for peace and make the best terms she can. Possibly the campaign against Porto Rico will now go on. The Spanish troops will be sent to Spain immediately. Our troops will be withdrawn from Santiago as quickly as possible. Garcia's forces, aided by 5,000 regulars, will be left in charge. General Shafter will be Military Governor of Eastern Cuba.

Pasquotank Scholarship to the A. & M. College.

Mr. J. D. Fulmer, of the county Board of education has received a communication from President Holiday of the North Carolina Agricultural and Mechanical College concerning the scholarship, allotted for Pasquotank county, to that institution. Every county, is entitled to send to this college, free of tuition and lodging, as many students as it has representatives in the lower House. In this case Pasquotank is entitled to one.

The method of selecting the county student is as follows: Examinations, after they have been advertised in the county papers are held at every county seat. All who desire to apply for the places stand these examinations. The College authorities read these papers and report to the county Supervisor the names of all that pass satisfactory examinations for entrance. From this list the board of education appoints those they deem most worthy and most in need.

This college has a particular mission, entirely different from that of other colleges of the State, and the remarkable success of its graduates shows that it is filling its mission of preferring the young Men of North Carolina to fill successfully important and lucrative industrial positions.

Mr. Fulmer informs us that examinations will be held Aug. 1st. Boys, thoroughly prepare yourselves and sustain the reputation of Pasquotank.

If you want a nice suit of clothes and get good value for your money, go to Fowler & Co.

The A. C. I.

It looks like a work of surrogation for us to commend the educational work of President S. L. Sheep in the Albemarle section of North Carolina and throughout Eastern Carolina. But the twenty first annual session of the Atlantic Collegiate Institute opens early in September, and as the Twenty First anniversary of birth seems to be one of the recognized, conspicuous milestones in the journey of life, it seems opportune to again congratulate this Institution of learning upon its achievement in the field of education, also to congratulate this section of our State upon the usefulness it has been to us, since the "little school around the corner" lifted its humble head on church street with its six or eight urchins, and S. L. Sheep identified himself with us as one of our citizens for good and all. Since then its march has been upward and onward, with no step backward, until now it enrolls over two hundred matriculates, and President Sheep has the proud and blessed distinction of looking abroad and at home and seeing the boys he has trained, swinging the sturdy scythe in the harvest field of life and contending manfully for the palm of honor, distinction and usefulness, and all looking up to their old preceptor with reverence, gratitude and affection. It is a more blessed distinction than that of the laurel crowned hero who has "waded through slaughter to a throne," and infinitely happier.

ELIZABETH CITY, N. C.

Will Induce Others to Come.

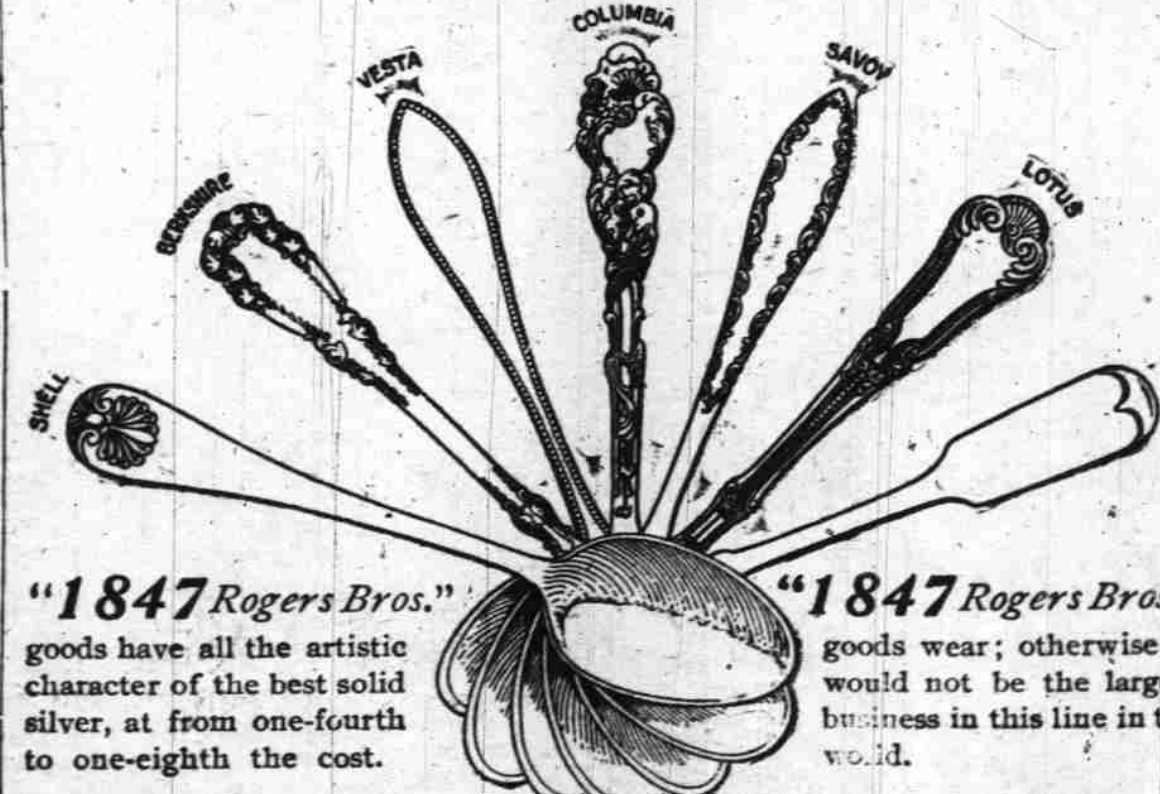

The potato market has held up remarkably well. All of our farmers have made money on the potato crop this season. A northern farmer who recently settled in our midst raised over two thousand barrels, for which he realized a handsome sum. He was so well pleased with the results of his efforts that he will induce others of his enterprising northern friends to cast their lots with us. He says we have a country, which possess as boundless resources, though undeveloped as they are. Says he. There are thousands of enterprising men in the North and West who have (means, and who would locate here if inducements were offered. They know nothing of the wonderful resources of our country, and it is to be spurred with a sense of public spirit which would result in thoroughly advertising our country. There is no doubt but that the South holds the possibilities of the future, and certainly there is no part of the South possessing more possibilities than eastern North Carolina. Our people must awake to a sense of their duty, make known our country, induce enterprising settlers to locate with us, and thereby grasp an unlimited opportunity.

We have a Bicycle for you. Call for it to-morrow morning and you can enjoy a pleasant ride before breakfast. This not being dated holds good for seven years. Hathaway Bros. right on the corner.

Experience and Capital are a strong combination, and have made

"1847 Rogers Bros."

Knives, Forks, Spoons, etc.,

the best known brand in the world. "1847 Rogers Bros." goods have been made for over fifty years, steadily gaining in character of designs, finish and general popularity, but best of all the good old "Rogers" quality has been maintained. It would be hard indeed to improve upon the wearing qualities first exhibited by this brand, and which have made "1847 Rogers Bros." the most famous of all silverware. Do not experiment by trying something that has not stood the test of time. Buy "1847" goods, which have a well-known and well-earned reputation, and you run no risk. There are other "Rogers." The original and genuine has this prefix—"1847."
