A COLD, STONY GAZE.

HOW EMMA JUCH FROZE AN INDIS-CREET REPORTER.

An Interview In Which the Sympathetic Newspaper Man Got an Invitation to Retire and the Mendaclous One Got the Story.

I never heard the critics accuse Emma Juch of lacking sympathy or fire in her art, but there must be scores of interviewers in this country ready to swear that she was reared on lemon ice. Upon occasions Mme. Juch appeared the personification of joyonsness, the very goddess of mirth, but these occur usually when guarantees look bona fide and when there happens to be no other lady soloist on the bill.

Unluckily Lencountered the famous songstress at a time when she had lost \$500 by the rascality, as she expressed it, of a St. Paul manager; also, as it was on the programme, strong in her possession of a fresh young voice that thrilled audiences in aria or ballad and won applause of the spontaneous sort that critics call ovation. Mme. Juch received the applause, but not the ovation, and, per consequence, was unhappy.

Hearing that the fair warbler had sustained a financial reverse, the editor of the Minneapolis Journal naturally wanted to know all about it for publication, and I happened to be detailed for the interview. Mme. Juch was at the West hotel. I sent up my card, and despite the somewhat unseasonable hour-it was scarcely half past 10 in the morning-received an invitation to visit the prima donna.

Just as I was about to enter the elevator a reporter for another afternoon newspaper stepped up. He was a rather new man, an excellent fellow, but, as on its merits by it seemed to me, somewhat lacking in finesse.

"I'm going up to see Emma," he said. "Where are you going ?"

"Same errand," I replied. "We'd better tackle her one at a time, hadn't we?"

"Lord, no!" he responded. "We'll both go in at once. You do the talking, and I'll take notes."

My companion gasped and subsided on a horsehair settee near the door.

Mme. Juch appeared majestic, statuesque, magnificent, if you will, but cold-very cold. She bade me be seated in a refrigerated tone and asked to what she was indebted for the honor, etc. Heaven defend me from the notable who opens an interview that way!

A queer noise reached me from the direction of the settee, and I supposed the other fellow was swinging his arms to keep warm, but I dared not look around.

In as few words as possible I explained the object of the call, threw in a few mild remarks indicative of my belief that the St. Paul manager was a soulless scoundrel, who ought to be lynched, and then I waited.

It is entirely unnecessary to recapitulate the interview. Mme. Juch went over the conditions of her contract and described the treatment to which she had been subjected with some little approach to warmth of expression. She really seemed to be thawing when that unregenerate wretch over on the hcrsehair settee chipped in. The singer's recital of her financial woes had excited his ire against the man who had defrauded her, and he blurted out, referring to the recreant manager:

"He's a big stiff; that's what he isa big stiff!"

"Would you-er-mind leaving the room," said lovely Emma, addressing the other fellow. "Perhaps a detective sort of a person, don't you think ?" she added as the other fellow escaped.

I indorsed the opinion and went on with the interview, which lasted another 15 minutes. Then I bowed myself out and hunted the other man, intending to placate him, but he wouldn't speak to me and hasn't since. That

TTATI HE DIG UDJECT TO.

The author of "Kings of the Hunting Field says that at a certain English church many years ago, while the clergyman was reading prayers, a man walked in, shoated "I've got 'un!" and immediately withdrew. He had sounded a well known call. Every farmer and laborer who possessed a gun soon followed him and in an hour or two brought to the village inn the fox they had shot.

Spirituality was in those days at a very low ebb, and some clergymen cared more for sport than for the example they set to their flecks. Bishops tried to discountenance hunting as a clerical pastime, but the law did not enable them to remove the offenders from their livings. Dr. Phillpotts, bishop of Exetcr, who called to account several sporting clergymen in his diocese, met one of them at a friend's house.

"I am told, my lord, that you object but are easily disposed of to the inner is peculiarly sensitive. It sometimes to my hunting," said the clergyman.
