STORAGE FOR GRAIN

Practical Granary With Several Good Working Conveniences.

scription of Building Constructed Several Years Ago-Gasoline Engine Valuable Adjunct.

The granary on our farm was built in 1875, and we have found it both practical and convenient, writes Lon Hurst of Ohio, in Rural New Yorker. It is a timber frame, 20 by 30 feet, with 16-foot posts and sets up from the ground about two feet. The girths are 4 by 4 inch oak scantling, the joist 2 by 8 inch gained two inches in the beams, leaving four inches above, which comes even with the top of the girths; in this way there is no chance

Plan of a Grain Chute.

the floor to sag at the ends-it makes a perfectly tight joint. The method of doing this is to procure an tened, but only the upper half of the sides; the lower half is sawed to make about four-inch siding, thus leaving an air space for the corn which is on the first floor. At one end is a double doorway, seven feet. The second floor is used entirely for small grain. There are 11 bins, six on one side, five on the other, each being 41/2 by 41/2 feet, 514 feet high, and holding about 100 oushels. The larger part of the floor can also be used for grain, and there is a grain chute in the center. At one end is an elevator raised and lowered by means of a windlass. It is rope attached at each corner; these in file the edges smooth to prevent its turn are attached to two ropes which | tearing the bag. Set the bucket in the pass over the windlass. This is rath- mouth of the bag as shown in the illus- cuits. er tedious, and most of the grain is tration and you will have no trouble carried up the stairs, which are in in filling it. one corner. There is a landing part way up, the stairs are wide and the incline easy of ascent, so this method is not so bad, yet a great convenience; in fact this is about the only feature of the building in which we would care to make a change. This floor is well lighted by two good-sized windows, one at each end.

PEANUTS MAKE GOOD PROFIT

Last Year's Crop Was Marketed for About \$36,000,000-Used for Fattening Hogs.

The person who buys a nickel's worth of peanuts to munch at the ball game, to feed to the squirrels in the Ohio Farmer Gives Interesting De- park, or to gladden the hearts of the kiddles at home, scarcely realizes that he has contributed to an industry that last year farmed a \$1,000,000 crop, which, placed on the market in various forms, reached the enormous sum of \$36,000,000. But it is a fact!

This little seductive nut-a resolution to "eat just one" is soon forgotten-whose birthplace is America, appreciated, either as to the "money in it" or as a really nutritious product. Today the peanut plays an important part in pleasure, from the swell dinner party to the ever-present democracy of the circus, ball game or picnic. By far the largest part of the crop is consumed from the peanut stand, yet there are millions of bushels that go to the fattening of hogs throughout | time. It is the standard, tonic medithe south and the feeding of poultry, | cine, for women of every age. while the vines, often cured as hay,

even old mother earth is nourished by the roots of the plant, which furnishes nitrogen from the air. The result of all this is, that scientists claim that the peanut, which in the past was not very highly regarded, is the only food staple that will at once nourish man, beast, bird and field. It is the most nutritious of the whole nut family, rich in tissue buildcarbohydrates-and is the cheapest Beyond the shadow of a doubt it is

feed thousands of head of cattle and

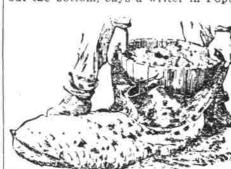

standpoint. The fact of the matter is, the peanut is about every way in a class by Tenn, for Secial Instructions, and 64-itself as regards price, average number in pounds, edible part, waste and fat. Peanuts average about three bundred and fifty to pound, at a cost of ten cents; the edible portion is 73.6, waste 26.4, and the amount of fat is placed at 80 per cent, of the edible portion.

Pierce's Favorite Prescription which saves the suffering sex

R. V. Pierce, President, Buffalo, N. Y.

Do you realize that my shoes have been the standard for over 30 years, that I make and sell more \$3.00, \$3.50 and \$4.00 shoes than any other manufacturer in the U.S., and that DOLLAR, I GUARANIEE MY SHOES to hold their shape, look and fit better, and wear longer than any other \$3.00, \$3.50 or \$4.00 shoes you can buy? Quality counts. It has made my shoes THE LEADERS OF THE WORLD.

You will be pleased when you buy my shoes because of the fit and appearance, and when it comes time for you to purchase another pair, you will be more than pleased because the last ones wore so well, and gave you so much comfort.

CAUTION! None genuine without W. L. Douglas TAKE NO SUBSTITUTE If your dealer cannot supply you with W. L. Douglas Shoes, write for Mail Order Catalog.
