A shot gun which he had borrowed from a neighbor was found nearby. He died in three or four minutes after being found by friends. A coroner's inquest was held, the evidence in which was that Gerlach and his brother-in-law, O. M. Brown, went in a hack to Tokay on leaving the vineyard Gerlach set out to walk through the woods and hunt while Brown rode. Gerlach shot a bird and went on. After a lapse of some time, Gerlach not appearing, friends went in search of him and found him in the woods dying. The shot destroyed the left lung and entered the heart.

Messrs. W. C. Cannon and J. H. Melvin prominent business men of Parkersburg were in this section Thursday.

WADE-MORRIS. Durham, Oct. 7.—Miss Helen Emily Morris, of Hendersonville, and Mr. J. Floyd Wade, of Durham, were the contracting parties in a very romantic marriage here this afternoon at 2:30 o'clock the ceremony being performed at St. Joseph's Episcopal church of West Durham.

Miss Morris had been on a visit to friends in Dunn, and a few days ago came to this city to pay a visit to Miss Felicia Keiffner. Today Mr. Wade came to the city and the marriage of the two was quietly arranged, and just as quietly carried out. The marriage service was read by Rev. T. L. Trotter. The bride has many friends in Durham, being a graduate of the Conservatory, and during her school days here, made many friends. She was visiting an old schoolmate. The groom is a prominent cotton broker of Dunn.

JESSUP'S ACADEMY NEWS. Jessup's Academy, Oct. 3.—Children's Day was celebrated on Sunday, Sept. 30th and it goes without saying that it was an occasion long to be remembered.

Politics are quiet in this country. Very little is being said about either ticket, though Bull Moose sentiment seems to predominate and the Afl-Cio hunter seems to be the choice of many.

We bespeak a brilliant success for the new Index and a steady increase in popularity and usefulness. Draw the sword of reform, throw away the scabbard and suspend it by hair over the heads of the violators of the law.

SMASHES A WINDOW.

Travelling Man Didn't Like the Kind of Windows on R. C. & S. Railway.

When the R. C. & S. train reached Fuquay Springs Sunday the Spring in one of the windows gave way and the window fell with considerable force and a man who appeared to be a travelling man, smashed it with his umbrella. The conductor was in another part of the car at the time, but a passenger who was on the rear of the car went into the other part, where the conductor was and in a minute returned. A few minutes later the conductor, approached the travelling man and they held a low conversation and names were passed.

The travelling man evidently promised to settle the matter out of court so he got off the train unmolested. It was a little amusing to see the fellow looking at the brake after he ran his umbrella through it. He sat and gazed at it almost all of the way afterwards until he left the train. It evidently looked worse to him than it did when he was using his umbrella upon it. However, there was a little feeling that all of them needed smashes, as it was very warm on the train and none of the catches would hold for more than a minute or two.

CHAMBER OF COMMERCE.

The regular monthly meeting of the Chamber of Commerce was called to order by the president at 7:15 Thursday night with an attendance of nearly seventy-five business men eager to engage in the work at hand.

Rev. W. M. Fairley led in prayer. Co-operation seemed to be the keynote of everything that was done and this idea seemed to be uppermost in the minds of all.

Mr. W. M. Fairley remarked along this line and stated that we were hindered in our progress because of the lack of this spirit all over the city. He said we should throw aside selfish aims and in doing so each would be benefitted thereby.

Dr. H. J. Carson spoke very forcibly along the line of methods employed by organizations in other towns and cited as an instance of what could be done, Armarilla, Tex., which grew to be a nice city through the cooperative ideas put forth by the business interests in encouraging manufacturing enterprises to come into their midst. He said that this city brought property and held it ready to donate free sites to enterprises which would agree to build factories.

Mr. John W. Judge made report of the meeting of State Chamber of Commerce held in Greensboro, where a temporary organization was formed and urged that members of our body attend the meeting of same in Raleigh on October 15th. On motion of Mr. Anderson the Fayetteville organization joined this State body and the president was instructed to appoint delegates, not to exceed five, to attend the meeting.

Quite a lively discussion was carried on as regards freight rates and steps are going to be taken to ascertain how our rates compare with other cities, in the effort to take some action as regards same. It seemed that all the business interests were enthusiastic on this point and numerous speeches were made. Mr. Stuford cited statistics showing that North Carolina paid greatly in excess of other States and others who engaged in discussing same were Messrs. Underwood, Anderson and Maulsby.

Dr. Jordan discussed the question of merchants having floats in the floral parade at the fair and was promised the aid and support of the Chamber of Commerce to the end that this fair be made the greatest that we have ever had. It is hoped that a number of business houses will decorate automobiles or vehicles and be represented in the parade. A resolution was passed that all business houses should close on Thursday (24th) of fair week from 11 o'clock a. m. to 4 p. m.

NEW SURVEY.

Of Fayetteville and Southern Pines Railway.

The A. C. L. Railway force are surveying a road direct from here to Southern Pines. Two or three lines have already been run and it was thought that the line was to run from here to Southern Pines by Manchester but there is a possibility that the road will be direct from here to Southern Pines, instead of by Manchester, as originally given out. It would be a saving of about five miles in distance to run straight and put Southern Pines within twenty miles of Fayetteville, instead of about sixty, as you have to travel now. It will connect with the A. C. L. line at Southern Pines, and will give a direct line from Southern Pines to Southport by Fayetteville, opening up a fine back country that has not been reached by railway with this section. The force of engineers began surveying the line from the point where the new depot here is to be built direct to Southern Pines.

Mr. S. J. Carson and Mr. J. H. Melvin, prominent business men of Parkersburg, were in this section Thursday.

Sorry to hear that Mr. D. F. Coble got his hand mashed very badly with log cart recently.

Mr. and Mrs. Rufus Morgan's baby is quite ill with measles.

VICTIM OF ACCIDENT IS DEAD.

Miss Margaret Sellers, of Burlington, Who Was Hit by Train in Durham.

Burlington, Oct. 7.—Miss Margaret Sellers, daughter of Mr. B. R. Sellers, a prominent business man of this city died at the home of her father in this city yesterday, after an illness of several weeks, caused by being struck by an engine on the Southern railroad near Black Mountain several weeks ago.

Mr. Sellers has a summer home at Montreat, where he and his family spend the summer months. On the day of the accident Mr. Sellers, accompanied by his daughter, Miss Margaret, and his brother, Mr. Fred Sellers, who was visiting him, and his niece, Miss Beattie Sellers, started for a visit to Old Fort. It was necessary to cross the railroad on foot to save several miles distance, and in crossing a trestle they were overtaken by a freight train. All jumped except Miss Margaret Sellers and she was in the center of the trestle, and it was about 100 feet to the ground. She attempted to leap far out from the track on the cross ties, thinking that she could escape being struck. The engine struck her and knocked her off the track. She was righted badly but soon got better and was able to be brought to her home at Burlington, where she was thought to be settling along very well, until she was taken worse.

Miss Sellers was a young girl 16 years of age, of a bright and sweet disposition, and was loved by all who knew her. Her death, coming so early in life, and the bereaved as a surprise, has cast sorrow over parents who have the sincere sympathy of their best friends.

ONE HOSS TROUBLE.

Injunction Against Moving Old Hoss Warehouse on Hay Street.

The A. C. L. Railway began moving the Old Hoss warehouse from its old site to a new one near A. F. Johnson's some days ago. Mr. Johnson secured a lawyer who advised an injunction, and hustled off to Raleigh to see Judge Ferguson, who was holding court there. Last week the lawyer was soon armed with the proper authority to be placed in the hands of the sheriff of Cumberland county, commanding the A. C. L. to halt operations and meet another judge at Robeson court this week. It turns out that the judge named is not there. Then the question arose as to what was to be done about the matter, as it was placed before the wrong judge. However it is agreed by all parties that the judge holding court at Lumberton is the proper person to hear the matter and it will be taken up possibly tonight, too late for us to get the result for this week's issue.

The plaintiff complains that it is kept for the storage of kerosene oil and other combustibles, decayed fruits, guano and other substances not much more fragrant and that it is dangerous not only from the standpoint of health but is dangerous as a fire trap and that they hold frequent sales in it when there is a rough drunken class which makes it unpleasant for his family and the neighborhood and will cause the depreciation of all nearby property. This of course is denied by the railroad company and they will wait for Mr. Johnson to make proof of his allegations. It was continued until the next term on Cumberland court.

HOPE MILLS NEWS.

Woman's Missionary Union Meets at Hope Mills Baptist Church—Personal and Otherwise.

Hope Mills, Oct. 8.—The Woman's Missionary Union of the Cumberland Association met with the Hope Mills Baptist church, at Cotton last Saturday and Sunday. Rev. C. H. Durham, of Lumberton, preached a strong sermon Saturday evening at 7:30 on the work that is being done by the women of our churches.

Mrs. R. D. Caldwell and Mrs. I. F. Hedgcock of Lumberton, Mrs. D. C. Rogers of Hope Mills, Miss Blanche Barron, of Raleigh, Miss Julia Olive, Miss Emma Cashwell and Mrs. Fisher of Fayetteville, and Miss Pauline Jones and Mrs. G. T. Rackley, of the Cape Fear church, were all present on Sunday and made interesting talks on different phases of the work. The ladies think that the meeting was the most helpful one that they have had. The fine dinner that was spread on the grounds aroused the drooping spirits of the men and made them anxious for another missionary meeting to be held in this section in the near future. The next annual meeting will be held with the Green Springs Baptist church.

Rev. R. A. McLeod, of Moore county, visited Big Rock Presbyterian church, near Cotton, in the interest of Miss High school and preached a fine educational sermon last Sunday.

On the third Sunday of this month Rev. L. Smith will begin a series of meetings in the Presbyterian church here.

A few days ago Messrs. William and Aaron Rogers, of Moore county, visited their brother, Mr. Joseph Rogers, who is very sick at the home of his son, Mr. D. C. Rogers, of this place.

The many friends of Mrs. Will Blue will be sorry to hear of her serious illness.

All Hope Mills is delighted to know that Dr. J. C. Gilbert, who underwent an operation at the Highsmith Hospital, is getting along well and is expected home one day this week.

"Watch Hope Mills Grow." Many young and tender souls have begun to breathe the fresh air of this delightful place in the last week or two. Let the little ones come to us and forbid them not, for of such is the City of Hope Mills. Since the illness of Dr. Gilbert, there has been no rest by day nor by night for Dr. Hutchinson. We feel sure that he has taken great delight in administering to the needs of a growing town.

It is being circulated that the Hope Mills Manufacturing Co. is going to begin to run on full time at once.

Messrs. E. M. Britt and Sam Hamilton of Lumberton were visitors in our town Sunday.

On Monday evening the class from Oxford Orphanage gave an entertainment in the Masonic Hall, and the class gave evidence of the great work being done in that institution. The people of Hope Mills are always delighted to have this class visit them in their homes and look forward with pleasure to the time when they will return.

While the mills here have not been running on full time, standing idle for three or four years, the outlook now is considered bright.

The managers having received orders to start up as rapidly as possible all the machinery. A large number of the operatives were compelled to seek employment elsewhere during this time, but as soon as a sufficient number of operatives can be secured to man the machinery, business will begin to hum and the town will get to a boom.

There are five churches in town well attended. The school is also doing an excellent work for the people yet there is room for improvement along these lines. The future welfare of the town depends upon the care of the rising generation and every citizen should manifest a personal interest in the development of the physical, mental and spiritual well-being of the future citizenship.

The farming interests in the surrounding country are being developed very rapidly and the people from other States are coming into the community and are securing tracts of land and opening up farms. While this land is situated in a sandy section of the country and has not been considered worth scarcely anything, it is proving to be very valuable farming land, admitting of permanent improvements, and frequently bringing from twenty-five to fifty dollars per acre.

The town is in great need of a trolley line from this place to Fayetteville and it is thought that a line will be extended from Fayetteville to this place in the not distant future. This will not only be a great benefit to the citizens of the town but would also be the means of developing the country along the line.
