

An Announcement

To The People Of Fayetteville and Vicinity

THERE IS A NEW CLOTHING STORE IN FAYETTEVILLE.

It is new in the sense that it has a new location and new fixtures.

It is really an old store in years and name, but it's new in all its physical aspects.

For 14 years you people have been buying good clothes of us. This sustained patronage could only come because we are giving the right kind of service and the right kind of goods, at the right prices.

You are really responsible for our new store. By increasing loyalty to our business, you created the demand for a better equipped store.

And we want you to know that this is your store—fitted out as you would like it. Nothing fancy, no frills; just plain business-like fixtures, designed to show the goods to better advantage and to give you greater convenience and more room.

WE ARE NOW GETTING SETTLED AND WILL BE READY TO WELCOME YOU TO OUR NEW STORE ON

Thursday, August 23,

5 o'clock p.m.

The Hon. Mayor Jas D. McNeil will make an address of welcome to our worthy patrons and friends. Your entire family are most cordially invited to the opening of this store.

Nothing sold during the opening hours from 5 to 7 o'clock

WE WANT YOU THERE

Good Music During The Opening—Souvenirs will be given out as long as the supply last.

Hard smashes at the Germans in France again have been conclusive of important gains of the Entente Allies. North of Verdun the French have captured additional points of vantage while the Canadians have fought their way forward near in the rear of the town of Lens, taking 2,000 yards of positions westward northwards of the town.

Funeral Of Dr. Rose

Sacked hulls mean convenience and economy

PUTTING Buckeye Hulls in sacks is just one of the important little things that have been done to make this roughage an improvement over the old style. This makes

BUCKEYE COTTONSEED HULLS LINTLESS

easier to handle when putting them in the barn and easier to measure out when mixing feed. It keeps them clean and makes your help think of them as forage—not as bedding.

Even though sacked, Buckeye Hulls sell for much less than loose old style hulls. It costs us money to sack them but we believe that anything that will help you use this product to best advantage is worth the expense.

Other Advantages

Buckeye Hulls are free of lint which has no food value. They mix well with other food. 2600 pounds of real roughage to the ton—not 1500. Buckeye Hulls allow better utilization of food.

Kimbraugh Bros., Indiana, Mass., say:

"We are using Buckeye Hulls and are very much pleased with them. We think they are superior to old style hulls."

To secure the best results and to develop the exhalation odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by setting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

Book of Mixed Feeds Free

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.
